Fortune's Formula William Poundstone,2005 In 1961 MIT mathematics professor Ed Thorp made a small Vegas fortune by counting cards his 1962 bestseller *Beat the Dealer* made the phrase a household word With Claude Shannon the father of information theory Thorp next conquered the roulette tables In this prosaic but fascinating cultural history the author tells not only what they did but how they did it **The English Reports** ,1903 **The English Reports: House of Lords (1677-1865)** ,1900 *Boethius' Consolation of Philosophy as a Product of Late Antiquity* Antonio Donato,2013-09-12 In the last fifty years the field of Late Antiquity has advanced significantly Today we have a picture of this period that is more precise and accurate than before However the study of one of the most significant texts of this age Boethius *Consolation of Philosophy* has not benefited enough from these advances in scholarship Antonio Donato aims to fill this gap by investigating how the study of the *Consolation* can profit from the knowledge of Boethius cultural political and social background that is available today The book focuses on three topics Boethius social political background his notion of philosophy and its sources and his understanding of the relation between Christianity and classical culture These topics deal with issues that are of crucial importance for the exegesis of the *Consolation* The study of Boethius social political background allows us to gain a better understanding of the identity of the character Boethius and to recognize his role in the *Consolation* Examination of the possible sources of Boethius notion of philosophy and of their influence on the *Consolation* offers valuable instruments to evaluate the role of the text s philosophical discussions and their relation to its literary features Finally the long standing problem of the lack of overt Christian elements in the *Consolation* can be enlightened by considering how Boethius relies on a peculiar understanding of philosophy s goal and its relation to Christianity that was common among some of his predecessors and contemporaries **Utilization of Farm Crops** United States.
