well, there's a very interesting question ... Well, physically, I take after my mum, I suppose. Our facial features are pretty similar – same eyes, same-shaped forehead. I've seen photos of her when she was my age and apart from the slight hairstyle and the slight shape of each cheekbone, she says that they can see a strong family resemblance between my dad and me. I can't see it myself, not clearly anyway – although there are certain similarities in her physical build. I still seem to have inherited his big feet, actually. For me, it was the first thing my parents noticed when I was born. Personality-wise, I've got a lot of my dad's traits. In me, there's both quiet beauty and beauty for two people and, and we share quite a laid-back approach to life. When it comes to food, though, I reckon I've got more in common with my mum. She's got a knack of finding really brilliant birthday presents for me, but it's always, presents or whatever, basically because she likes the same kind of things as I do. She also seems a bit of a fan for the same kind of food, the coffee and sandwiches, and rather of all cars

most bananas and coffee. It's a bit scary, really, is it something she's passed on to me genetically, or is it learned behaviour? We'll know!
