USEFUL ABBREVIATIONS FOR LIBRARY AND INFORMATION SCIENCE (NET / SET / PET and Competitive

Examination) DR. TUSHAR M. PATIL,2020-09-23 What is an abbreviation Abbreviations have a long history created so that spelling out a whole word could be avoided This might be done to save time and space and also to provide secrecy In both Greece and Rome the reduction of words to single letters was common In Roman inscriptions Words were commonly abbreviated by using the initial letter or letters of words and most inscriptions have at least one abbreviation However some could have more than one meaning depending on their context An abbreviation on the other hand is also a way to shorten a phrase but with a slight difference In general abbreviations tend to shorten the word or phrase being referenced by literally shortening the word but not creating a new one So for example shortening the word avenue to ave is an abbreviation rather than an acronym because ave does not form a new enunciable word Similarly shortening the names of the months such as December to Dec is also an abbreviation because when reading Dec out loud you would just say the full term December
