

DISCOURSE ANALYSIS

Discourse analysis is an approach to the study of language that demonstrates how language shapes reality and reveal dominant ways of thinking an acting.

OVERVIEW

Discourse analysis involves the examination of how the 'ways of speaking about things' normalizes and privileges some frames of thinking about things while marginalizing others.

As a simple example, if movies consistently frame the ideal female as passive, silent, and submissive, then this becomes normalized in the "dominant discourse" of gender.

EXAMPLE

Studying Government Policies: A discourse analysis of policy texts would involve looking at the keywords, metaphors, and phrases used in the text and how they reveal ideological frameworks and viewpoints of the government of the day. These sorts of studies often demonstrate how the language of policy texts normalizes some behaviors and marginalizes others.

Discourse Analysis For Language Teachers Mindset Technology

Zhicai Zhong

Discourse Analysis For Language Teachers Mindset Technology:

Proceedings of the International Conference on Information Engineering and Applications (IEA) 2012 Zhicai Zhong, 2013-03-28 Information engineering and applications is the field of study concerned with constructing information computing intelligent systems mathematical models numerical solution techniques and using computers and other electronic devices to analyze and solve natural scientific social scientific and engineering problems Information engineering is an important underpinning for techniques used in information and computational science and there are many unresolved problems worth studying The Proceedings of the 2nd International Conference on Information Engineering and Applications IEA 2012 which was held in Chongqing China from October 26 28 2012 discusses the most innovative research and developments including technical challenges and social legal political and economic issues A forum for engineers and scientists in academia industry and government the Proceedings of the 2nd International Conference on Information Engineering and Applications presents ideas results works in progress and experience in all aspects of information engineering and applications

Linguistics and Language Behavior Abstracts, 2008

Performative Linguistic Space Neriko Musha Doerr, Jennifer M. McGuire, 2023-09-18 This volume explores performative linguistic space namely a space which ushers or hinders linguistic practices Space is made productive as a result of individuals who bring linguistic politics from diverse spaces into new ones By moving away from the notions of discrete units of language and linguistic communities associated with a specific space this volume suggests a fluid productive aspect of space It goes beyond the assumed space linguistic community association through ethnographic accounts that mediate linguistic anthropology cultural geography sociolinguistics and deaf studies

Transforming Teacher Preparation Through Identity, Development, and Effective Technologies Sargent, Denise LaVoie, Murphy, Kristin M., 2024-08-09 In the landscape of global education there is a dire shortage of teachers exacerbated by declining enrollment rates and a mass exodus of educators particularly in urban settings UNESCO s revelation that millions of teachers are needed by 2030 underscores the critical gaps in our ability to provide quality education As the education sector grapples with these challenges Transforming Teacher Preparation Through

Identity Development and Effective Technologies offers valuable solutions This compilation responds to the pressing need for a paradigm shift in teacher preparation offering insights recommendations and diverse perspectives from experts worldwide to address the current crisis and shape the future of education Teacher shortages and diminishing enrollment rates coupled with the departure of educators pose a significant threat to the quality of education globally Urban areas in particular witness a disproportionate exodus of educators creating disparities that impact the most vulnerable students The COVID 19 pandemic has further emphasized the need for innovative technology driven solutions in teacher preparation As schools deal with these issues the imperative is to not only reflect on the current state of teacher preparation but also to set forth recommendations that will transform the field ensuring a robust and resilient education system for the years to come

Big Data Computing Tanvir Habib Sardar, Bishwajeet Kumar Pandey, 2024-02-27 This book primarily aims to provide an in depth understanding of recent advances in big data computing technologies methodologies and applications along with introductory details of big data computing models such as Apache Hadoop MapReduce Hive Pig Mahout in memory storage systems NoSQL databases and big data streaming services such as Apache Spark Kafka and so forth It also covers developments in big data computing applications such as machine learning deep learning graph processing and many others Features Provides comprehensive analysis of advanced aspects of big data challenges and enabling technologies Explains computing models using real world examples and dataset based experiments Includes case studies quality diagrams and demonstrations in each chapter Describes modifications and optimization of existing technologies along with the novel big data computing models Explores references to machine learning deep learning and graph processing This book is aimed at graduate students and researchers in high performance computing data mining knowledge discovery and distributed computing
