or boss but instead work for themselves They set their own hours and follow their own rules It is difficult to be self employed in this society because you have to rely on the wills of others and your courage to set up your business However it is not impossible and there are different ways to be self employed which can provide you with more freedom and flexibility while still bringing in some money If you want to work at home then this is the technology which is enabling the change and it is allowing nomads to work from home Companies are recognising the potential of this new method of working and the first areas to embrace the new way of working are the legal ones However it is not just the legal firms and public sector which are looking to employment technology in order to cut costs Almost every type of industry is looking at using technology in order to lower costs and in this way increase profits For example restaurants are using recruitment technology in order to lower salaries and costs Until a few years ago when every restaurant had a fixed cost of hiring training and maintenance the vast majority of restaurants were able to pay 100% of their employees salaries This meant that it was possible to pay a manager less than a waiter and save money However with the inclusion of recruitment technology the cost of hiring employees is being cut by up to 50% This does not necessarily mean that the amount of profit is increased but employees are able to be assigned to different tasks meaning that they spend less time in front of customers thus increasing their profits Interested to know more Then Scroll up Click on Buy now with 1 Click and Get Your Copy Now *Work from Abroad* Drew Sing,2020-09-19 Remote work is here to stay So why should you restrict yourself to living in one place anymore if you can work from anywhere Better yet why not explore the world as a remote working professional Work From Abroad is a how to guide to planning and successfully transitioning to a remote friendly lifestyle abroad all while sticking to your company s work hours and still being a productive full time employee Whether it s for a few weeks or a few years you ll learn what continents and activities make sense to pursue based on your work hours and interests Work From Abroad will teach you Why slow travel is the best way to work and see the world in the COVID 19 times we live in now The 4 steps to persuading your boss to let you work from abroad What coliving is and how to utilize these spaces as homes workspaces and communities Remote work tools and tips to maximize your productivity from anywhere How to take care of real world loose ends and set up a domestic home base while abroad Have certain passions that aren t easy to pursue with your current 9 to 5 You ll learn how to craft the perfect schedule based on your interests Love to surf or ski Work From Abroad will show you how to identify compatible timezones in Central America and Europe so you can maximize your personal time With a remote job world is waiting for you You can have your career and explore the world too Welcome abroad
