**Linking Health and Education for African American Students' Success** Nadine M. Finigan-Carr,2017-03-16 The linkages between a student's health and a student's ability to learn have been well established. Children who are sick stay home and children at home cannot learn if they are not in school, leading to increased dropout rates among other educational outcomes. However, an understanding of this concept is just the beginning of understanding how education and public health are inextricably linked. In light of this, *Linking Health and Education for African American Students' Success* examines health disparities and education inequities simultaneously and moves beyond a basic understanding of health and education in K-12 school programs. The structural inequalities which lead to reduced academic attainment mirror the social determinants of health. Education is one of the most powerful determinants of health and disparities in educational achievement as a result of structural inequalities closely track disparities in health. These disparities lead to both sub-standard healthcare and reduced academic attainment among children from underserved minorities in the United States, especially African Americans. This book discusses how this may result in children with poorer mental health outcomes, higher school dropout rates, increased risks of arrests and incarceration, higher rates of chronic diseases and mortality, and overall diminished opportunities for success, while providing suggestions as to how to address these issues. This results in an insightful read for researchers, academics, and practitioners in the fields of healthcare and education. *The School to Prison Pipeline* Nathern Okilwa, Muhammad Khalifa, Felecia Briscoe,2017-03-03 This edited volume focuses on the role that school climate and disciplinary practices have on the educational and social experiences of students of color. **DISPROPORTIONALITY IN EDUCATION AND SPECIAL EDUCATION** Amity Lynn Noltemeyer, Caven S. Mcloughlin,2012-07-01 Given the burgeoning number of diverse students in our nation's schools, coupled with the potentially negative outcomes and wasted resources associated with the misidentification of students for special education and excessive use of exclusionary discipline for specific subgroups of students, it is imperative that educational professionals understand and address the implications arising from disproportionality for children both with and without disabilities. This text contributes unique perspectives and up-to-date information, including advances and research that have emerged since the last of the extant books was published. Presented in three sections, the first considers disproportionality in special education identification, with chapters examining overrepresentation by ethnicity, gender, and language. The second section addresses disproportionality in discipline, specifically focusing on inequalities in school disciplinary actions and juvenile justice decisions based on ethnicity and gender. The final section provides readers with approaches for addressing disproportionality and creating more equitable learning environments now and in the future. The text encourages bidirectional and evolving relationships between the topics examined in each chapter, with the historical framework presented. Because of the comprehensive nature of the topics covered in the book, it is an ideal one-stop reference for readers aiming to acquire a broad understanding of the key issues related to the topic. The book will appeal to a range of potential readers, including university students and practitioners in the

fields of education psychology sociology gender studies ethnic studies and criminal justice as well as lay readers interested in issues of equality and or education     Disproportionality and Social Justice in Education Nicholas Gage, Luke J. Rapa, Denise K. Whitford, Antonis Katsiyannis, 2022-10-25 This book examines disproportionality in education focusing on issues of social justice for diverse and marginalized students It addresses disproportionality as an indicator of biased practices and uses social justice as the frame for conceptualizing disproportionality historically and as a means to improve educational practice Chapters explore the historical issue of disproportionality in education outcomes experienced by racially and ethnically diverse students and students with disabilities including discipline bullying and academic achievement and ways in which social justice can inform policy and practice to make a positive impact reducing disproportionality in education Key areas of coverage include Methodological and statistical concerns in disproportionality research in education Reviews research and data on disproportionality in education e g disciplinary exclusion bullying seclusion and restraint corporal punishment school based arrests and academic achievement Social justice as a theoretical and legal driver for change in policy and practice Educational assessment and intervention practices designed to address disproportionality in education Disproportionality and Social Justice in Education is a must have resource for researchers professors and graduate students as well as clinicians practitioners and policymakers across such disciplines as clinical child and school psychology educational psychology and teaching and teacher education social work and counselling pediatrics and school nursing educational policy and politics public health and all interrelated disciplines     Solving Disproportionality and Achieving Equity Edward Fergus, 2016-10-28
