Survival Guide to General Chemistry Patrick E. McMahon, Rosemary McMahon, Bohdan Khomtchouk, 2019-02-13 This work evolved over thirty combined years of teaching general chemistry to a variety of student demographics. The focus is not to recap or review the theoretical concepts well described in the available texts. Instead, the topics and descriptions in this book make available specific detailed step by step methods and procedures for solving the major types of problems in general chemistry. Explanations, instructional process sequences, solved examples, and completely solved practice problems are greatly expanded, containing significantly more detail than can usually be devoted to in a comprehensive text. Many chapters also provide alternative viewpoints as an aid to understanding. Key Features: The authors have included every major topic in the first semester of general chemistry and most major topics from the second semester. Each is written in a specific and detailed step by step process for problem solving, whether mathematical or conceptual. Each topic has greatly expanded examples and solved practice problems containing significantly more detail than found in comprehensive texts. Includes a chapter designed to eliminate confusion concerning acid base reactions, which often persists through working with acid base equilibrium. Many chapters provide alternative viewpoints as an aid to understanding. This book addresses a very real need for a large number of incoming freshman in STEM fields. *GO TO Objective NEET 2021 Chemistry Guide 8th Edition* Disha Experts, **(Free Sample) GO TO Objective NEET Chemistry Guide with DPP & CPP Sheets 9th Edition** Disha Experts, 2021-10-07 The thoroughly revised updated 9th Edition of Go To Objective NEET Chemistry is developed on the objective pattern following the chapter plan as per the NCERT books of class 11 and 12. The book has been rebranded as GO TO, keeping the spirit with which this edition has been designed. The complete book contains 31 Chapters. In the new structure, the book is completely revamped with every chapter divided into 2-4 Topics. Each Topic contains Study Notes along with a DPP (Daily Practice Problem) of 15-20 MCQs. This is followed by a Revision Concept Map at the end of each chapter. The theory is followed by a set of 2 Exercises for practice. The first exercise is based on Concepts Application. It also covers NCERT based questions. This is followed by Exemplar past 8 year NEET 2013-2021 questions. In the end of the chapter, a CPP (Chapter Practice Problem Sheet) of 45 Quality MCQs is provided. The solutions to all the questions have been provided immediately at the end of each chapter. *Student's Guide to Chemistry; a Modern Introduction* David Brooks, 1974. *Study Guide* Darrell D.
