Automotive Technology A Systems Approach:

Automotive Technology Jack Erjavec, Martin Restoule, Stephen Leroux, Rob D. Thompson, 2014-11-15 Advancing technology continues to improve the operation and integration of the various systems of the automobile. These changes present ongoing challenges for students to become successful automotive technicians. The third Canadian edition of *Automotive Technology A Systems Approach* was designed and written to continue to prepare students for those challenges. This book concentrates on the need to know essentials of the various automotive systems and how they have changed from the vehicles of yesterday to the operation of today's vehicles and what to expect in the near future. New technology is addressed throughout the book but some older technology remains in this edition as technicians will still see this technology in older vehicles. Each topic is explained in a logical way slowly but surely. Many years of teaching have provided the author team of this text with a good sense of how students read and study technical material as well as what draws their interest to a topic and keeps it there. This knowledge has been incorporated in the writing and the features of this book.

Automotive Technology Jack Erjavec, Rob Thompson, 2014-04-08 The Tech Manual is a thorough workbook that offers students a way to reinforce their comprehension of chapter content from the core textbook to think critically about the material they've learned on a given topic and to put this knowledge to practice. This is achieved through a series of Concept Activities, Review Questions, and Job Sheets for every chapter in the manual, guiding students methodically through the analysis, diagnosis, and repair procedures that they will be exposed to as working technicians.

Automotive Technology: a Systems Approach, Cengage International Edition Rob Thompson, Jack Erjavec, 2024-10-30 Thompson Erjavec's *AUTOMOTIVE TECHNOLOGY A SYSTEMS APPROACH CENGAGE INTERNATIONAL EDITION 8th Edition* provides comprehensive coverage with updates to address the latest ASE Education Foundation requirements for Maintenance and Light Repair MLR Automotive Service Technology AST and Master Service Technology MAST program accreditation levels. Thoroughly revised to provide accurate current information on the latest technology, industry trends, and state-of-the-art tools and techniques, the 8th edition is an essential resource for building career-ready students who want to succeed in the dynamic, rapidly evolving field of automotive service and repair.
