Beyond The Quadratic Formula Classroom Resource Materials:

Beyond the Quadratic Formula Ron Irving,2013 A study guide to polynomials that goes beyond the familiar quadratic formula to cover cubic and quartic equations **BEYOND THE QUADRATIC FORMULA RON IRVING.,2020** **Beyond the Quadratic Formula** Ron Irving,2020-01-29 The quadratic formula for the solution of quadratic equations was discovered independently by scholars in many ancient cultures and is familiar to everyone Less well known are formulas for solutions of cubic and quartic equations whose discovery was the high point of 16th century mathematics Their study forms the heart of this book as part of the broader theme that a polynomial s coefficients can be used to obtain detailed information on its roots The book is designed for self study with many results presented as exercises and some supplemented by outlines for solution The intended audience includes in service and prospective secondary mathematics teachers high school students eager to go beyond the standard curriculum undergraduates who desire an in depth look at a topic they may have unwittingly skipped over and the mathematically curious who wish to do some work to unlock the mysteries of this beautiful subject

101 Careers in Mathematics Andrew Sterrett,2014-12-31 This third edition of the immensely popular 101 Careers in Mathematics contains updates on the career paths of individuals profiled in the first and second editions along with many new profiles No career counselor should be without this valuable resource The Author s of the essays in this volume describe a wide variety of careers for which a background in the mathematical sciences is useful Each of the jobs presented shows real people in real jobs Their individual histories demonstrate how the study of mathematics was useful in landing well paying jobs in predictable places such as IBM AT s profiled here range from bachelor s to master s to PhD in approximately equal numbers Most of the writers use the mathematical sciences on a daily basis in their work Others rely on the general problem solving skills acquired in mathematics as they deal with complex issues **Beginning Algebra** Margaret L. Lial,Charles David Miller,John Hornsby,1992 **Developing Thinking in Statistics** Alan Graham,2006-03-23 This book should prove to be an important addition to the relatively few publications that exist on statistical thinking It very nicely encourages the reader to take an active learning approach through simultaneously promoting pedagogy with knowledge and skills enhancement in statistics Understanding what the subject is for and what it can do are crucial in statistical education by getting the reader to think statistically Mr Graham has provided us with a very readable book that helps to dispel the poor reputation that statistics has acquired over many years Professor Neville Davies Director Royal Statistical Society Centre for Statistical Education Nottingham Trent University Statistics is a key area of the school mathematics curriculum where maths and the real world meet Although potentially a subject where teaching can be motivating and relevant to everyday concerns it is often seen as boring and involving largely mechanical calculations This book will enable teachers and others interested in statistical thinking to become excited and inspired by the big ideas of statistics and in turn teach them enthusiastically learners Designed to heighten awareness of statistical ideas the book explores key themes within statistics using ideas

developed by the influential team at The Open University's Centre for Mathematics Education Themes include Measurement Variation Randomness Uncertainty Arranged in an accessible task based format this is an essential text for all secondary maths teachers and students of maths education It is a comprehensive book that will illuminate and inspire interest in the subject based on innovative use of ICT engaging narrative firm research and good practice Developing Thinking in Statistics is a set book on the Open University Course ME626 Developing Statistical Thinking part of the Graduate Diploma in Mathematics Education
