

# Annotated Sample Research Proposal: Process and Product

## Research Proposals in a Nutshell:

The basic purposes of all research proposals are to convince the reader that:

- (a) the research project has clear objectives;
- (b) the research project is worth doing (it is significant / important in some sense and will make an original contribution to knowledge / understanding in the field)
- (c) the proposed methods are suitable and feasible;
- (d) there is a well thought through plan for achieving the research objectives in the available timeframe.

Note that it is not enough to simply describe previous works, your project, and your methods.
