

Wave Recognition

A pair of pattern-recognition cards is used to teach the concepts continuous (they go on through) and discrete (not connected) patterns. Individual examples of the given patterns are provided for comparison purposes. Make a similar recognition for different patterns that child prefers. Use the same sets of patterns, they are available in Spanish.

The grid consists of 10 rows of pattern-recognition cards. Each row contains two cards. The left card shows a continuous wave pattern, and the right card shows a discrete wave pattern. The patterns vary in frequency and amplitude. A small inset box on the right side of the grid contains a small image of a car and some text.
