Government Gazette ,1907 The Syntax of Negation and the Licensing of Negative Polarity Items in Hindi Rajesh Kumar,2013-10-15 This books studies syntax of NPIs and their interaction with sentential negatives in Hindi It outlines the clause structure of Hindi and locates the syntactic position of sentential negatives as well as constituent negatives within the structure It is argued that sentential negative in Hindi negation marker heads its own maximal projection NegP which is immediately dominated by TP In addition to locating the position of negation markers in the clause structure it outlines the distribution of negative polarity items NPIs in Hindi and the structural constraints on their licensing by sentential negative The book argues that an NPI in Hindi is licensed overtly in the course of derivation by a c commanding negative marker The bulk of the evidence presented in this book argues against previous theoretical accounts that claim that NPI licensing involves covert syntactic operations such as LF movement or reconstruction With respect to the classification of NPIs this book also shows the existence of two different types of NPIs in Hindi namely strong NPIs and weak NPIs Strong NPIs require a clause mate c commanding negative licenser whereas weak NPIs are quantifiers and are similar to free choice any in English that are interpreted as NPIs in the presence of a c commanding negative licenser **Statement of Particulars**
