Abstract

Increased migration of the youth from Nepal has created a demand for mechanization in Nepalese agriculture. The systematic agricultural mechanization can lead towards the sustainable agricultural commercialization for a prosperous Nepal. This paper analyzes the efforts, status, and policies related to agricultural mechanization and recommends policy reforms to align with the new constitution of the Federal Republic of Nepal, institutional capacity building, business development, favoring local production of agricultural machinery, promotion of custom hiring in business model, capacity development, promotion of women-friendly technologies, equitable agricultural mechanization program, and an integrated effort for sustainable agricultural mechanization through a public-private partnership model.

Keywords: Agricultural mechanization; Policy; Spread; Commercialization; capacity development

1. Background

Agriculture is the backbone of the Nepalese economy due to its contribution to National Gross Domestic Product (GDP) by one-quarter and to employment by two-thirds [5]. Nepalese agriculture is dominated by smallholders' subsistence agriculture. Due to the open border with India, the migration of youth in the lean agricultural season in search of a job is a common phenomenon in the hills and mountains of Karnali and Far Western provinces. The migration of youth to foreign countries other than India sharply increased during the last two decades. The rural unemployment and unattractive traditional subsistence agriculture practice of Nepal along with the globalization and development of information and communication technology (ICT) are recognized as the major factor behind the increased foreign migrations. It is reported that the Department of Foreign Employment (DOFE) has issued over 4 million labor approvals to Nepalese workers in the last decade since 2008/09 for foreign employment [6]. The majority of these workers are male youth from rural areas resulting in the labor shortage in peak agricultural season and increased work burden on women farmers [13]. The lack of agricultural labor and their increased daily wage has resulted in the demand for agricultural mechanization in Nepal. Hence, the migration of youth can be regarded as a major driver for the increasing demand for agricultural mechanization. In addition, due to the expansion of transportation and communication networks in the country and the remittance money flow, small-town market centers have formed throughout the country, creating a conducive environment for commercial agriculture. Moreover, the foreign returnee youths have started investing in commercial agriculture and created a demand for appropriate mechanization technologies. In this context, this paper reviews and analyzes the mechanization efforts, status, policy programs, and future directions.

2. Efforts on promotion of agricultural mechanization in Nepal

The timeline of institutional efforts related to agricultural mechanization promotion is presented in Table 1. The foundation of agricultural mechanization was laid by the first agricultural engineer of Nepal, Huta Ram Baidhya, who was instrumental in establishing the Agricultural Engineering Unit at Singhadurbar, where he started modern carpentry and metal workshop [7]. On that foundation, the second agricultural engineer, Mr. Siddi Nath Regmi made a strong contribution to agricultural mechanization by establishing Agricultural Implement Research Unit at Ranighat, Birgunj where he started tests and promotion of animal-drawn metal plough and other modern tools and machinery in the Terai region of Nepal. With the support from the Union of Soviet Socialist Republics (USSR), Agricultural Tools Factory (ATF) was established in 1964 and made a significant contribution to the agricultural mechanization of Nepal by the production and supply of modern agricultural tools and machinery, viz., metal animal-drawn mould-board plough, disk harrow, thresher, pump set, tractor-trailer, wheelbarrows, hand hoes, etc. At that time the Agricultural Implement research unit at Ranighat served as a research wing of ATF. Mr. Siddi Nath Regmi also served as the General Manager of ATF for two terms and contributed to agricultural mechanization through the production and supply of modern agricultural tools and machinery to Nepalese farmers. During his tenure as the General Manager, the ATF was running in profit and provided a bonus to their employees and he was also awarded by the Management Association of Nepal (MAN) as the best manager (personal communication of author with Mr. Regmi).

Japan government-supported project "Janakpur Agriculture Development Project (JADP) was started in 1971 and under this project the shallow tube well, deep tube well, power tiller, and threshers were promoted in the Terai region of Nepal. Similarly, after the establishment of the Agriculture Development Bank (ADBANK), more fund was made available for agricultural credit (including agricultural mechanization technologies, viz., tractor and

Agricultural Engineering Research Development In Nepal Introduction

In today's digital age, the availability of Agricultural Engineering Research Development In Nepal books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Agricultural Engineering Research Development In Nepal books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Agricultural Engineering Research Development In Nepal books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Agricultural Engineering Research Development In Nepal versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Agricultural Engineering Research Development In Nepal books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Agricultural Engineering Research Development In Nepal books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Agricultural Engineering Research Development In Nepal books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated

to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Agricultural Engineering Research Development In Nepal books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Agricultural Engineering Research Development In Nepal books and manuals for download and embark on your journey of knowledge?
