Alice Munro S Narrative Art Springer:

Alice Munro's Late Style Robert Thacker, 2023-11-30 Focusing on Alice Munro's last three collections this book examines the differences between these volumes and the rest of her work to analyse the emergence and the difference of her late style Alice Munro has effectively reshaped the short story as a form This book focuses on Munro's art of recursion an approach that has been evident throughout her career but came to the fore in her last three books *The View from Castle Rock* 2006 *Too Much Happiness* 2009 and especially *Dear Life* 2012 This recursion and return manifest themselves not only in Munro's return to previously published pieces but also to her discovery and meditations on her Scottish heritage which can be read as entrance to her own understanding of herself and her life Its provenance displayed through archival evidence is complex yet reveals a writer intent on a precise late style Munro's final works serve as a coda to both her late style and to her entire career as arguably one of the finest short story writers ever to put pen to paper **Life Narratives, Creativity, and the Social in the Americas** Wilfried Raussert, Susana Rocha Teixeira, 2024-12-02 Resorting to life narratives as a comprehensive umbrella term and embracing hemispheric American studies paradigms this edited volume explores the interrelations between life narratives the social world creativity and different forms of media to narrate and re-present the self to see in which way these expressions offer new means of self-representation within cultural productions from the Americas Creativity in the context of life narratives nourishes the act of narrating and propels among others the desire to link individual life stories with larger stories of social embeddedness conditioning and transformation thus pushing new forms of historiography and other forms of nonfictional writing Accordingly the creative impulse fuses individual and collective experience with a larger understanding of the social including the latter's local and global embeddedness The contributions in this volume analyze the ways in which the dynamics tensions and reciprocities between narrative creativity and the social world unfold in life narratives from the Americas In particular this volume addresses scholars and students of life writing cultural and literary studies gender disability and postcolonial studies with new insights into life narratives from the Americas The Production of Lateness Rahel Rivera Godoy-Benesch, 2020-05-11 This study examines how selected authors of the late 20th and early 21st centuries write about their creative processes in old age and thus purposefully produce a late style of their own Late life creativity has not always been viewed favourably Prevalent peak and decline models suggest that artists as they grow old cease to produce high-quality work Aiming to counter such ageist discourses the present study proposes a new ethics of reading literary texts by elderly authors For this purpose it develops a methodology that consolidates textual analysis with cultural gerontology The Mini-Cycle Allan Weiss, 2021-05-06 While scholars have been studying the short story cycle for some time now this book discusses a form that has never before been identified and named let alone analyzed the mini cycle A mini cycle is a short story cycle made up in most cases of only two or three stories This study looks at mini cycles spanning the period from Anton Chekhov's little trilogy 1898 to the Alphinland stories in Margaret Atwood's *Stone*

Mattress 2014 including texts by such authors as Stephen Leacock Alice Munro Robert Olen Butler and Clark Blaise Consideration is also given to marginal examples like Sherwood Anderson's *Godliness A Tale in Four Parts* 1919 which can be seen as one story or four distinct texts unified under one title and to what is called the exploded mini cycle one whose component stories are published with intervening stories between them rather than consecutively For each mini cycle the analysis is based on close reading of both the linking elements character imagery symbolism and so forth and the rhetorical and aesthetic effects of the mini cycle's being made up of distinct stories rather than constructed as one long narrative

Stories in Letters - Letters in Stories Rebekka Schuh, 2021-10-04 This book deals with letters in Anglophone Canadian short stories of the late twentieth and the early twenty first century in the context of liminality It argues that in the course of the epistolary renaissance the letter which has often been deemed to be obsolete in literature has not only enjoyed an upsurge in novels but also migrated to the short story thus constituting the genre of the epistolary short story

Telecinematic Stylistics Christian Hoffmann, Monika Kirner-Ludwig, 2020-05-14 Over the last two decades the study of discourse in film and television has become one of the most promising research avenues in stylistics and pragmatics due to the dazzling variety of source material and the huge pragmatic range within it Meanwhile with the advent of streaming and the box set film and television themselves are becoming separated by an increasingly blurred line This volume closes a long standing gap in stylistics research bringing together a book level pragmastylistic showcase It presents current developments from the field from two complementary perspectives looking stylistically at the discourse in film and the discourse of and around film This latter phrase comes to mean the approaches which try to account for the pragmatic effects induced by cinematography This might be the camera work or the lighting or the mise en scene or montage The volume takes a multimodal approach looking at word movement and gesture in keeping with modern stylistics The volume shows how pragmatic themes and methods are adapted and applied to films including speech acts im politeness implicature and context In this way it provides systematic insights into how meanings are displayed enhanced suppressed and negotiated in both film and televisual arts

Ordinary Wisdom William Lowell Randall, Gary M. Kenyon, 2001 Randall and Kenyon examine the concept of wisdom What wisdom is exactly has vexed thinkers throughout the history of thought Indeed for much of modern times the topic has been taboo given the intellectual climate created by such movements as analytic philosophy behaviorist psychology and cognitive science This study adds to a growing movement that is reclaiming wisdom as a meaningful concept by viewing human development in terms of metaphors that enrich models like mind as computer which proposes mental activity is reducible to processing information Randall and Kenyon's metaphors are life as story and life as journey and their conceptual extension life as adventure ordinary metaphors with extraordinary implications Through the lenses of these intertwining time honored tropes the authors see wisdom not as an unattainable ideal nor as the sole province of experts or educators geniuses therapists or saints Rather it is potentially within the reach of everyone not as a commodity but as a

quality of life as a matter of being not of having Insofar as everyone is on a journey and has or is a story everyone has access to an ordinary wisdom which it behooves people to explore and express This book will be of particular interest to scholars students and researchers involved with psychology gerontology theology philosophy and education
