

### Product introduction

This product is an intelligent remote control integrating the latest technology. With simple setup, it ensures you easy and combined control over your daily-used appliances, such as TV set, STB, DVD and audio equipment etc. Its innovative digital reproduction technology enables you to fully transfer and integrate the functions of your original remote controls. It is your best choice to replace any lost or damaged remote control as well as to integrate several remote controls.

### Description of the control panel

### Battery Installation:

Open the battery cover, put in two new AAA(No.74) alkaline batteries (not attached) according to the "+" symbol inside the battery pack.

- Never mix different types of batteries, or an old battery with a new one.
- In case of battery leakage, the batteries must be taken out, and the battery compartment should be cleaned before new batteries are installed.
- If you are not going to use this remote control for a long time, please make sure to take the batteries out from the compartment.

### Setting of the remote controller

#### A. How to Enter Codes

1. Look up the first set of Code of the home appliance that you wish to control on the Code Chart. For Example, if your first TV set is an AWA, the first set of Code shall be 0102.

TV	CODE
AWA	0102
AAA	0103
BBB	0104
CCC	0105

- Press and hold the "SET" Button, and then press the "Select Equipment" Button to set the mode to your desired home appliance. For Example: Press the "SET" Button and "TV" Button to set the mode to your first television set.

- When the Indicator Light is switched on, release the "Settings" Button and "TV" Button at the same time.

- Input the four-digit Code 0102 in the order as seen on the Code Chart.

**Note:** The Indicator Light will flash once each time you input a single unit.

- After you have completed inputting the Code, the Indicator Light will switch on.

- Check to see if the other buttons can be operated normally. If the buttons cannot be operated normally, please repeat Steps 2 to 5.

#### B. How to Search for Codes Manually

1. Switch on the Power Switch of the home appliance you wish to control (for example, television or recording machine) manually. Place the remote control directly at the receive window of the home appliance.

- Press and hold the "SET" Button, and then press the "Select Equipment" Button to set the mode to your desired home appliance. For example: Press the "SET" Button and "TV" Button to set the mode to your first television set.

- When the Indicator Light is switched on, release the "Settings" Button and "TV" Button at the same time.

- Press and release the "SET" Button again. The Indicator Light will start to flash.

- Press the "Power Source" Button continuously until the home appliances which you control switches off/switches on. Then press the "Select Equipment" Button (for example "TV") you have pressed in Step 2 again.

- Switch on the home appliance which you have just switched off. Check to see if the other buttons on the Remote Control can be operated normally. If the buttons cannot be operated normally, Settings is successful. If the buttons cannot be operated normally, please repeat Steps 2 to 5, until you found the Code that is suitable for your home appliances.

### C. How to Search for Codes Automatically

- Switch on the home appliance you wish to control manually, and place the remote control directly at the receive window of the home appliance.
- Press the "Equipment" interface that you wish to Set, for example: "TV". The Operation Indicator Light will flash once.
- Press and hold the "SET" Button. Then press the "Power Source" Button until the Operation Indicator Light lights up. Then, release the "SET" Button and the "Power Source" Button.
- The Operation Indicator Light will start to flash. The Automatic Search Mode comes into operation.

- When your television is shutting down, press the "Random" Button on the Remote Control immediately and lock in the Code.
- Check to see if the other buttons on the Remote Control can be operated normally. For example: Press "Power Source" Button to see if the television can be switched off, and whether the television can be operated normally after Settings is completed. If the television cannot be operated normally, please repeat Steps 3 to 5.

### Setting of the remote controller

#### Key learning function:

##### Setup method:

- Press once the device key of the page to be learned, and then press and hold down "Learn" key for three seconds to start the learning function.

- Horizontally aim the infrared emission window (usually refers to the left end emission device installed on the front of a remote control) of the original remote control of the TV set at the infrared emission window of this remote control (with a distance of 2cm-5cm).

- Press any function key of the original TV remote control and release it when the indicator light is continuously on; instantly, the data of the function key is copied and transmitted to this remote control.

- Press the corresponding key in the TV area on the panel of this remote control, now the indicator light flashes again, and the above data has been instantly transferred to the selected corresponding key of this remote control. According to your needs, you may repeat steps 3-4 to copy and transfer the data of each key; when finish, press "SET" key to exit and cease the Remote Control Keys Copying and Transferring Function status.

Copying and transferring function has specific storage space; when the storage space is used up, the indicator light turns on and rapidly flashes five times, prompting that the copying and transferring function cannot be used.

If you want to clear copied and transferred information under a device of the remote control, please press tightly "SET" key and simultaneously press the said device key; then enter 9991 when the indicator light is on, and the information is cleared.
