Example #1 is from a paper on the Renaissance author Sir Thomas Browne, and the use of humor in his writing. This paragraph focuses on Browne's long essay on funeral and burial practices.

Not all of Browne's subjects are obviously humorous. In an essay on Browne's "Hydrotaphia, Urn-Burial," Michael Stanford asks why "of all the works of this essentially comic writer, a dark meditation should prove the most famous and enduring" (414). This critic's essay focuses on the macabre aspect of the text, Browne's revulsion at death, and his pity for humanity. Stanford notes, "there are no jokes in the fifth chapter" (419) but does not otherwise address the humor in "Hydrotaphia, Urn-Burial," except to say that "Browne's greatest effects arise when a profound torment drives all the playfulness...from his style" (422). In an article on the same work, Leonard Natheson more fully acknowledges Browne's humor. He states, "Browne's meditation on mortality is suffused by a witty gravity and weighty exuberance [and is] even consciously playful" (Natheson 458). Nevertheless, like Stanford and most other critics, Natheson discusses the more serious aspects of the text almost exclusively. Browne's essay has an important element of humor, though, and understanding this element gives readers a deeper appreciation of the essay's religious message about mortality. Chapter One is full of puns and witty, ironic statements. For example, he puns on "crept" (reminiscent of "crypt") when discussing the ancient Egyptians (Browne 352). In middle chapters, Browne points out the humor of stories such as the ancient Roman one in which a woman complains that she is cold in the afterlife because her cremation fire was not hot enough. The last chapters are then striking in their lack of humor; they have a contrasting seriousness. The presence of humor earlier in his essay draws the readers in from the beginning, emotionally as well as intellectually, luring the audience into following him through the initially bitter and then sublime, hopeful end. He follows the
