investing in index funds results in passive income meaning that after the initial investment you don't need to put regular time effort or expense into your investment. Since you as the investor don't need the help of analysts and managers to give you advice on what to invest in, it cuts down on the expenses necessary to maintain your portfolio. And many experts say that passive investments actually perform better than actively managed higher risk investments. Index funds are one way to work along with the market rather than trying to play against it and win.
