Abstract

Code-switching in spoken modes has now been studied fairly extensively and is better understood at the conversational as well as the grammatical level. However, interest in written code-switching has developed more slowly and is still represented mainly in relation to specific periods, such as the Classical period and the medieval period, where a large number of works have now appeared. Linguists have questioned to what extent the models developed for spoken code-switching can be applied to writing, and *a fortiori* to literary writing. This introductory article reviews the main types of literary multilingualism and the main functions of code-switching within it. We conclude that there is at least a partial – and not inconsiderable – overlap between the functions of code-switching in spoken and written modalities.

Code-switching, conversational code-switching, multilingual literature, translanguaging

1 From oral to written code-switching

The past 50 years have seen an exponential growth both in the study of bilingualism, and in one of its most salient conversational manifestations: code-switching (CS). Linguists have long since debunked Weinreich's conception of the 'ideal bilingual', and the claim that s/he 'switches from one language to the other according to the appropriate changes in the speech situation ... but not in unchanged speech situations and certainly not within a single sentence' (Weinreich, 1953: 73). On the contrary, we now have a
