Mascareñaz, Doannie Tran, 2023-06-20 A call to action for school and community leaders to reframe educational institutions as open systems that are adaptable and responsive to the needs of students families and communities Landon Mascare az and Doannie Tran propose that even as events of this decade have exposed stress points in existing top down closed systems within education and other public institutions they have also created prime opportunities to rethink and redesign those systems in ways that encourage civic participation and invigorate local democracy In The Open System Mascare az and Tran argue for a critical revitalization of public education centered in openness an organization design concept in which an entity receives considers and acts on input from the community it serves As they demonstrate open education policy improves information flow increasing opportunity bolstering public trust and making room for cocreation and coproduction driven by community partnerships and family engagement Based on their groundbreaking work with educational coalitions such as the Kentucky Coalition for Advancing Education and Colorado s Homegrown Talent Initiative Mascare az and Tran introduce six key liberatory moves that can bring about open system transformation They highlight real life examples of the types of incremental specific and discrete projects that leaders can use to create openness in educational systems at the school district and state levels providing a blueprint for changemaking      European Social Movements and the

Transnationalization of Public Spheres Angela Bourne, 2018-12-07 Many contemporary social movements observe copy learn from coordinate and cooperate with other movements abroad and some mobilise to influence processes of global governance Can these transnational dimensions of mobilization transform the territorial scale of political debate on issues of common concern in public spheres In contrast to many existing studies which focus on the media as carriers of public sphere transnationalisation this book presents a theoretical and empirical exploration of the role of social movements in such processes As arenas or subaltern counterpublics in themselves social movements may provide a setting in which activists come to frame claims in a comparative manner interact with activists from other countries frame problems as matters of transnational concerns or consider themselves members of transnational communities As actors social movements may contribute to the transnational transformation of public spheres by directing claims to political authorities beyond the state claiming to represent transnational constituencies and focus on similar issues and use similar frames of reference as movements abroad The book s case studies addressing efforts to build transnational social movements and transnational dimensions of anti austerity and prodemocracy movements in Spain Portugal Greece Turkey and Ireland provide contemporary empirical illustrations of such processes at work The chapters were originally published in a special issue of the Journal of Civil Society      *Buying a Bride* Marcia A. Zug, 2016-06-07 There have always been mail order brides in America but we haven t always thought about them in the same ways In *Buying a Bride* Marcia A Zug starts with the so

called Tobacco Wives of the Jamestown colony and moves all the way forward to today's modern same sex mail order grooms to explore the advantages and disadvantages of mail order marriage It's a history of deception physical abuse and failed unions It's also the story of how mail order marriage can offer women surprising and empowering opportunities Drawing on a forgotten trove of colorful mail order marriage court cases Zug explores the many troubling legal issues that arise in mail order marriage domestic abuse and murder breach of contract fraud especially relating to immigration and human trafficking and prostitution She tells the story of how mail order marriage lost the benign reputation it enjoyed in the Civil War era to become more and more reviled over time and she argues compellingly that it does not entirely deserve its current reputation While it is a common misperception that women turn to mail order marriage as a desperate last resort most mail order brides are enticed rather than coerced Since the first mail order brides arrived on American shores in 1619 mail order marriage has enabled women to improve both their marital prospects and their legal political and social freedoms *Buying A Bride* uncovers this history and shows us how mail order marriage empowers women and should be protected and even encouraged *NEW TESTAMENT HARMONY, AD 57 - 58* Robert Hodanko,2024-11-25 This book presents a harmonized chronology of the New Testament accounts for the period AD 57-58 All dates are approximate and are based on the determination that Jesus was crucified on Friday April 7 AD 30 Every effort has been made to present an accurate chronology of the New Testament events The 27 books of the New Testament were written by several men of different backgrounds and levels of education over a period of several decades under various circumstances e.g. on missionary journeys in prisons in exile on two different continents Asia and Europe Yet there is a remarkable harmony in their eyewitness accounts and teachings Such harmony provides strong evidence that the New Testament scriptures were inspired by God otherwise the historical record of the New Testament could not have been written with such unerring accuracy The purpose of this book is to highlight and trace this harmony Hopefully it will serve as a tool in your study of the Bible **The Beauty of God's House** Francesca Aran Murphy,2014-05-23 For thirty years Stratford Caldecott has been an inspirational figure in liturgy fantasy literature graphic novels spirituality education ecology and social theory Hundreds of people have learned from his spiritual approaches to the great existential questions *The Beauty of God's House* is a Festschrift dedicated to him The book seeks to cover the whole range of Caldecott's interests from poetics to politics Anyone interested in the field of theology and the arts will find much to intrigue them in this delightful multi-authored volume The common core of Stratford's interests is in the beauty of the cosmos and how it reflects the beauty of God This book is about the beauty of God's realm and it conceives God's realm as the arts politics liturgy religions and human life It touches on the many places where beauty and spirituality overlap It is an engagement in theological aesthetics that goes well beyond the aesthetic **Spring 2008 Symposium**,2008 **The Country Gentleman**,1909 *Broken Open* Craig Hamilton,Neil Jameson,2011-09-28 The true story of how ABC broadcaster Craig Hamilton stared down his demons to survive a mental breakdown *Broken Open* is the story of ABC sports

broadcaster Craig Hamilton and how on the eve of the biggest undertaking of his career he suffered a complete mental breakdown. Instead of covering the Sydney Olympics, Craig was confined to a padded cell in a mental institution and later diagnosed as suffering bipolar disorder. This catastrophe not only denied Craig his place at the Games, it almost ruined his career and turned his role as devoted husband and father into a living hell. From his initial shocking breakdown to his gradual and eventual recovery, Craig sifts through the evidence to identify the warning signs that might have told him he was in serious trouble. This trail identifies a family man who could be so typical of any of us. It illustrates that mental illness is not something that just happens to other people. It is an issue much closer to home and touches many more lives than we could ever imagine.

**Development** Eric Shragge, Michael Toye, 2006. Communities have long been ahead of governments in responding to changes in the economy, forging ahead with innovative grassroots projects that now make up a substantial portion of economic development initiatives. Having made major gains in practice and having built local capacities through innovation, Community Economic Development now stands at a crossroads. In *Building for Social Change*, Eric Shragge, Michael Toye, and colleagues from across the country offer a timely critical examination of CED practices and debates. This book is designed for CED practitioners, for others working in community-based organizations, and those being trained. There are a growing number of post-secondary programs in English Canada that educate students in CED and related fields such as regional development, yet there are not many publications that provide analytical perspectives and debate. The goal of this book is to describe and analyze CED practice primarily in Canada through a wide range of subjects: the evolution of its definitions, economic dimensions, and the key elements that form its context. *Building for Social Change* situates CED in wide political, economic, and social contexts, rich examples of the scope and practices, and some of the limits in Aboriginal communities. As a tool to support women, psychiatric survivors, enterprises, housing, and worker ownerships, are explored to help spur further critical discussion and debate.
