

Study Guide – Chapter 23 The Urinary System

- I. Know the parts of the urinary system. **Kidneys, ureters, urinary bladder, and urethra.**
- II. Know the functions of the kidneys. **They account for 0.4% of body weight but receive 21% of the blood. The kidneys filter the blood and excrete metabolic wastes, toxins, drugs, hormones, salts, and hydrogen ions. They also regulate blood pressure, blood volume, and blood osmolarity by regulating water output. Lastly, they regulate the electrolyte and acid-base balance of body fluids.**
- III. Know the main nitrogenous wastes and know why we want to eliminate them from the body. **Nitrogenous wastes are toxic. About 50% of them is urea (from proteins). Others include uric acid(from nucleic acids) and creatine(from creatine phosphate).**
- IV. Know the anatomy of the nephron. Know what the parts of the renal tubule are. **Functional unit of filtration. 1.2 mil in each kidney. Consists of a renal corpuscle and a long, coiled renal tubule. The renal Corpuscle includes the glomerulus and glomerular (Bowman's capsule), which encircles the glomerulus. PCT->Loop of Henle->DCT**
- V. Formation of Urine
 - A. Know the four steps of urine formation. **Glomerular filtration, tubular reabsorption, tubular secretion, and water conservation.**
 - B. Know how the names for the fluid changes as it moves through the nephron. **Fluid in the capsular space is called glomerular filtrate (similar to blood plasma but with no protein), the fluid in the rest of the tubule is called tubular fluid, and the fluid from the collecting duct onward can be called urine.**
 - C. Know what glomerular filtration is and know what drives the filtration. **It creates a plasma-like filtrate of the blood. Filtration is driven by the high pressure in the glomerular capillaries (afferent arteriole is larger than efferent arteriole). Makes kidneys vulnerable to hypertension.**
 - D. Know what GFR is and know that it is not always constant. Know the one example of regulation of glomerular filtration that was provided. **GFR is the glomerular filtration rate, the amount of filtrate formed per min by both kidneys. Males' GFR is about 125ml/min and females' is about 105ml/min. 99% of this is reabsorbed. Regulation of GFR comes through the regulation of glomerular blood pressure. An example of not being constant is norepinephrine from sympathetic neurons and epinephrine from the adrenal medulla (both released in fight or flight situations) causing constriction to the afferent arterioles. That would lead to a decrease in glomerular filtration because less blood is coming through the afferent arterioles.**
 - E. Tubular Reabsorption – Know what this is. **The process of reclaiming water and other filtrates from the tubular fluid and returning them to the blood. About 99% of the filtered materials are reabsorbed. 65% of the glomerular filtrate is reabsorbed by the PCT, further reabsorption occurs in the loop of Henle, the DCT, and the collecting duct.**
 - F. Tubular Secretion – Know what this is. **The renal tubule extracts materials from the peritubular capillaries and secretes them into tubular fluid. This includes movement of nitrogenous wastes, drugs, and other contaminants.**
 - G. Know how certain hormones affect reabsorption and/or secretion. **Aldosterone-**released when Na concentration in the blood decreases or when blood pressure is decreased.

Small Group Study Guide Chapter 23

Brigitte Niedzwiecki, Julie Pepper

Small Group Study Guide Chapter 23:

Bible Study Guide: Matthew Volume I Andrew J. Lamont-Turner, Embark on a transformative journey through the Gospel of Matthew with our comprehensive Bible Study Guide Immerse yourself in the rich tapestry of Matthew's narrative as we unravel the threads of prophecy parables and powerful teachings woven into this Gospel Key Features Discover the Kingdom Unearth the profound meaning behind the Kingdom of Heaven as a central theme guiding every aspect of Jesus' life teachings and mission Sermon on the Mount Deep Dive Dive into the Sermon on the Mount unpacking its revolutionary ethical principles and unveiling the blueprint for Kingdom living Parables Unveiled Explore the hidden treasures within Jesus' parables gaining insights into the mysteries of the Kingdom and their relevance to our lives today Discipleship Dynamics Delve into the challenges and rewards of discipleship presented in Matthew understanding the cost and joy of following Jesus Reflective Questions Engage in thoughtful reflection with questions that invite personal contemplation and application fostering a deeper connection to the Gospel message Prayers for Today Connect the timeless truths of Matthew with contemporary Christian life through prayers inspired by the Gospel making the scripture relevant to our daily journey Are you ready to embark on a profound exploration of the Kingdom of Heaven as revealed in the Gospel of Matthew Allow the transformative power of God's Word to shape your understanding and practice of your faith

Hearts on Fire Fred A. Hartley III, 2021-02-01 Heart fire is the invigorating feeling that ignites inside you when you encounter the reality the reality of the living God and the reality of who you are meant to be But fire is more than a feeling much more When the fire inside God touches something inside you the effect is spontaneous combustion God actually made your heart to be a flame holder of his presence The flow of fire into your heart is just as important as the flow of blood into your heart You can't live without blood and in reality you can't live without fire not really live Here's the good news it is not your job to set your heart on fire Fire is what God does not what you do Hearts on Fire is altering the course of history God wants to set your heart on fire and to make you a history shaper No one else can take your place You have a unique mission to fulfill May God spark revival fire in your heart today Hearts on Fire is not a book about revival it's a book of revival

[Destined to Ride the Healing Winds of Heaven](#) Annie MorningStar, 2022-10-04 In the memoir *Destined to Ride the Healing Winds of Heaven* a grown woman from South Eastern Montana experiences miraculous encounters with the God of the universe She is taken back in time to find her child within trapped in a frozen time warp of a chaotic and painful past filled with losses common to Native American children of that era Annie MorningStar emerges from these supernatural encounters with a new identity the dignity of her Native American heritage restored a passion to see the brokenhearted healed and those held captive by ghosts of the past set free by the same healing winds that touched her life As you journey with her just maybe you will catch your own healing current and come out changed as well
