“Cross-border controlled deliveries from a judicial perspective”

1. Introduction

This Issue in focus provided brief background information for the discussions during Workshop No. 1 “Cross-border controlled deliveries from a judicial perspective” in the context of the strategic meeting on drug trafficking held by Eurojust on 29 and 30 September 2014.

Following a short explanation of the reasons for the selection of this topic and the methods followed to prepare the background information (Section 2), this paper is structured into two main sections focusing on:

- **Section 3** - Analysis of the replies to the **questionnaire on controlled deliveries to all Member States** and Norway to identify main issues encountered in judicial cooperation in this field and to gather the views of the national authorities on the role played by Eurojust and Europol in controlled deliveries
- **Section 4** - Analysis of the replies to a **question asked of all Eurojust National Members** to establish whether they have exercised their powers to authorise and coordinate controlled deliveries in accordance with Articles 9c(1)(d) and 9d(a) of the Eurojust Decision.

Additionally, the **Annex** to this Issue in focus includes a table that was drafted by collating selected information from the replies to the questionnaires and by information available from other sources (Europol, the EMCDDA and the EJN). This compendium covers two main areas:

- Whether a Mutual Legal Assistance (MLA) request is required (before or after the controlled delivery);
- Which authority should be contacted (central or not).

The potential usefulness of this work was discussed by the practitioners participating in the strategic meeting and further validated after the strategic meeting in view of its distribution among interested practitioners.

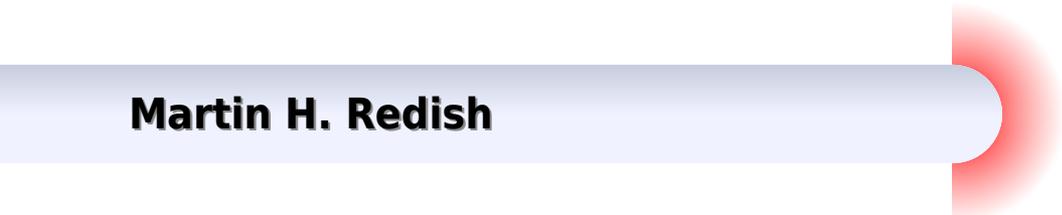

2. Background, scope and methods

The Implementation Report concluded that Eurojust has limited experience as regards the involvement of its National Members in authorising and coordinating controlled deliveries. On 28 January 2014, the College of Eurojust considered the findings of the Implementation Report and decided that Eurojust should identify methods of increasing assistance to Member States in the area of controlled deliveries, in particular by gathering and disseminating best practice and obstacles in judicial cooperation in this area. As a consequence, on 18 March 2014, Eurojust circulated the two questionnaires mentioned above, the replies of which are analysed in the following two sections.

Further efforts were made to elaborate a practical compendium from the replies to the questionnaires and the available sources (see Annex) that could be used by prosecutors to facilitate cases of cross-border controlled deliveries.

The Adversary First Amendment Martin H. Redish, 2013-06-12 The Adversary First Amendment presents a unique and controversial rethinking of modern American democratic theory and free speech Most free speech scholars understand the First Amendment as a vehicle for or protection of democracy itself relying upon cooperative or collectivist theories of democracy Martin Redish reconsiders free speech in the context of adversary democracy arguing that individuals should have the opportunity to affect the outcomes of collective decision making according to their own values and interests Adversary democracy recognizes the inevitability of conflict within a democratic society as well as the need for regulation of that conflict to prevent the onset of tyranny In doing so it embraces pluralism diversity and the individual growth and development deriving from the promotion of individual interests Drawing on previous free speech scholarship and case studies of controversial speech Redish advances a theory of free expression grounded in democratic notions of self promotion

and controlled adversary conflict making a strong case for its application across such areas as commercial speech campaign spending and anonymous speech *Children and the Law* Katherine Hunt Federle, 2012-11-16 The study and practice of juvenile law is inherently interdisciplinary a successful practitioner must understand not only the legal implications in the field but also have a solid grounding in child psychology child development neuroscience sociology criminology and social work The best child advocates in the law have a firm familiarity with and understanding of the value these other disciplines provide *Children and the Law* is a unique coursebook that will revolutionize the way students learn and apply juvenile law By incorporating the interdisciplinary topics necessary to understand the best practices in child law author Katherine Federle has carefully selected a vast array of articles studies research cases and statutes that allow students to best understand the law and also help bridge the divide between theory and practice The book is separated into four main sections Children and Crime Children and Protection Children and Restraints on Freedom and Children and Decision Making Each section in *Children and the Law* also includes a series of questions exercises and problems that encourage students to critically examine legal doctrine and policy in light of available scientific and socio scientific scholarship
