

Spice

Kenji Hirasa, Mitsuo Takemasa

Spice:

Spice Roger Crowley, 2024-04-09 The story of the sixteenth century's epic contest for the spice trade which propelled European maritime exploration and conquest across Asia and the Pacific. Spices drove the early modern world economy and for Europeans they represented riches on an unprecedented scale. Cloves and nutmeg could reach Europe only via a complex web of trade routes and for decades Spanish and Portuguese explorers competed to find their elusive source. But when the Portuguese finally reached the spice islands of the Moluccas in 1511 they set in motion a fierce competition for control. Roger Crowley shows how this struggle shaped the modern world. From 1511 to 1571 European powers linked up the oceans, established vast maritime empires and gave birth to global trade, all in the attempt to control the supply of spices. Taking us on voyages from the dockyards of Seville to the vastness of the Pacific, the volcanic Spice Islands of Indonesia, the Arctic Circle and the coasts of China, this is a narrative history rich in vivid eyewitness accounts of the adventures, shipwrecks and sieges that formed the first colonial encounters and remade the world economy for centuries to follow.

Spice Jack Turner, 2008-12-10 In this brilliant engrossing work Jack Turner explores an era from ancient times through the Renaissance when what we now consider common condiments were valued in gold and blood. Spices made sour medieval wines palatable, camouflaged the smell of corpses and served as wedding night aphrodisiacs. Indispensable for cooking, medicine, worship and the arts of love, they were thought to have magical properties and were so valuable that they were often kept under lock and key. For some spices represented Paradise, for others the road to perdition, but they were potent symbols of wealth and power and the wish to possess them drove explorers to circumnavigate the globe and even to savagery. Following spices across continents and through literature and mythology, *Spice* is a beguiling narrative about the surprisingly vast influence spices have had on human desire. Includes eight pages of color photographs. One of the Best Books of the Year. Discover Magazine, The Christian Science Monitor, San Francisco Chronicle.

The Spice Merchant's Daughter Christina Arokiasamy, 2008 It was the aroma. The exotic scent of spices, rich, alluring and almost magical. A scent that would sometimes overpower the freshness in the air and sometimes subtly mingle with it to create a tantalizing bouquet. A scent that would always bring me back to my childhood. Growing up enveloped in the aromas of her mother's spice stall in Kuala Lumpur, Christina Arokiasamy developed an artist's sense of how to combine and use spices in traditional and innovative ways. In *The Spice Merchant's Daughter* she shares her family's spice secrets expertly, guiding and enticing home cooks to enliven their repertoires. Christina weaves evocative stories of cooking at her mother's side with real world practical advice gleaned not only from working in professional kitchens but also from tackling the nightly task of getting a home cooked dinner on the table for her family of four using American ingredients. She shows how easy it is to build layers of complex flavor to create 100 tempting Southeast Asian inspired recipes including Lemon Pepper Wings, Spicy Beef Salad, Steamed Snapper with Tamarind Ginger Sauce, Cardamom Butter Rice with Sultanas and Coconut Flan Infused with Star Anise. She unlocks the transformative power

of homemade spice rubs curry pastes and sauces as well as chutneys and pickles enabling home cooks to bring new depth and dimension to their favorite dishes With lush photography and a chapter identifying and defining key pantry ingredients and aromatics *The Spice Merchant's Daughter* both inspires and empowers awakening the senses and unlocking the alluring world of spices

The Spice Market in the United States Peter J. Buzzanell,1995 [Spices, Condiments and Seasonings](#) Kenneth T. Farrell,1998-08-31 *Handbook on Spices and Condiments (Cultivation, Processing and Extraction)* H. Panda,2010-10-01 The term Spice and Condiments applies to natural plant or vegetable products or mixtures in whole or ground form which are used for imparting flavour aroma and piquancy to the food items Spices and condiments are a major commercial crop in India and earn a major part of foreign exchange annually They have been the backbone of agricultural industry The importance of spices and condiment in dietary medicinal and other uses and their commercial importance are immense India is known the world over as the home of spices Thus spices are an important group of agricultural goods which are virtually indispensable in the culinary art Spice processing includes different steps spice cleaning spice reconditioning and spice grinding Some spices were also used for preserving food like meat for a year or more without refrigeration In the 16th century cloves for instance were among the spices used to preserve food without refrigeration Cloves contain a chemical called eugenol that inhibits the growth of bacteria It is a natural antibiotic It is still used to preserve food like Virginia Ham Likewise later mustard and ground mustard were also found to have preservative qualities India alone contributes 25-30 % of the total world trade in spices It may be interesting to note that nine spices namely pepper ginger clove cinnamon cassia mace nutmeg pimento allspice and cardamom alone contributed as much as 90% of the total world trade Pepper is the most important spice in the world and so also of India This book basically deals with brief history of spices uses of spices world trade in spices area production of spices in India area and production of spices in India major and minor spices of India spice processing quality issues with spices bird chillies and Tabasco chillies basil or sweet basil seasoning blend duplication and tricks sauces and gravies snack seasonings quality issues with spices etc This book is a single compendium which deals with all aspects and facts of spices and condiments which may meet the requirements of all those handling them at various stages from harvesting to their end use This book contains post harvest management the potentials of genetic engineering high production technology in spices with plantation and processing of various spices and condiments such as vanilla turmeric tamarind saffron black pepper onion mint ginger garlic curry leaf coriander etc
