**Getting to Grips with BIM** James Harty, Tahar Kouider, Graham Paterson, 2015-12-14 With the UK government's 2016 BIM threshold approaching support for small organisations on interpreting filtering and applying BIM protocols and standards is urgently required Many small UK construction industry supply chain firms are uncertain about what Level 2 BIM involves and are unsure about taking first steps towards having BIM capability As digitisation increasingly impacts on work practices Getting to Grips with BIM offers an insight into an industry in change supplemented by practical guidance on managing the transition towards more widespread and integrated use of digital tools to manage the design construction and whole life use of buildings

**Bim Principles to Practice** Nicholas D. Naugle, 2012 Computer animation projects specifically feature film productions require large teams of artists to manage and coordinate the use of enormous amounts of data containing both aesthetic and technical information within a specific time frame and while using finite resources Mismanagement through information loss or inefficiency can result in both a compromised artistic vision and a financial loss This thesis presents the conceptualization of a work management system based upon a successful system used in architecture and construction called Building Information Modeling or BIM BIM principles are adapted for use in animation production through the use of images as containers of information The thesis does not include implementation of the management system described but does predict based upon comparisons with architecture and construction that a significant level of information carry through can be achieved from concept art to final frames and we expect a positive gains in the efficient use of production resources Adoption of this proposed project management structure could reduce production budgets improve the communication flow between directors and artists and develop an empirical based record for predicting the resource usage requirements for proposed projects in the future
