When Machines Can Be Judge, Jury, And Executioner: Justice In The Age Of Artificial Intelligence Katherine B Forrest,2021-04-08 Is it fair for a judge to increase a defendant s prison time on the basis of an algorithmic score that predicts the likelihood that he will commit future crimes Many states now say yes even when the algorithms they use for this purpose have a high error rate a secret design and a demonstratable racial bias The former federal judge Katherine Forrest in her short but incisive When Machines Can Be Judge Jury and Executioner says this is both unfair and irrational See full reviewJed S RakoffUnited States District Judge for the Southern District of New YorkNew York Review of Books This book explores justice in the age of artificial intelligence It argues that current AI tools used in connection with liberty decisions are based on utilitarian frameworks of justice and inconsistent with individual fairness reflected in the US Constitution and Declaration of Independence It uses AI risk assessment tools and lethal autonomous weapons as examples of how AI influences liberty decisions The algorithmic design of AI risk assessment tools can and does embed human biases Designers and users of these AI tools have allowed some degree of compromise to exist between accuracy and individual fairness

Written by a former federal judge who lectures widely and frequently on AI and the justice system this book is the first comprehensive presentation of the theoretical framework of AI tools in the criminal justice system and lethal autonomous weapons utilized in decision making The book then provides a comprehensive explanation as to why tracing the evolution of the debate regarding racial and other biases embedded in such tools No other book delves as comprehensively into the theory and practice of AI risk assessment tools

Artificial Intelligence, Human Agency and the Educational Leader
 Rosemary Papa, Karen Moran Jackson, 2021-12-06 This book includes contributions by scholars from a variety of disciplines the dialogue and discourse on how AI artificial intelligence development includes and or excludes pedagogical educational learning theories focused on the learner A call from Educational Leaders Without Borders ELWB was issued to scholars from across the globe who were asked to write a vignette described as an evocative description or account on how education leaders envision education in 2051 and A I beyond mere product purchase These vignettes should engage us in questions as to how the development and use of AI technologies are shaped As educators who believe education should be established on social justice beliefs and practices our review of literature shows there are no books addressing the complexities of A I development and the role of educators The futuristic element is unique in its approach to imagine a socially just better world in which to inspire educators This unique feature encourages creativity in how one addresses the call to imagine a future world and our role as educators in that world
