Chapter 1

Introduction

1.1 Introduction:

Supermarket management system is the system where all the aspects related to the proper management of supermarket is done. This project is based on the sales transaction and billing of items in a supermarket. The first activity is based on adding the items to the system along with the rate which are present in the supermarket and the name of the items which the supermarket will agree to sell. This authority is given only to admin (administrator). Any modifications to be done in the item name and the rate can be done only by admin. He also has the right to delete any item. As the customer buys the products and comes to the billing counter, the user is supposed to enter the item name he purchased and the quantity of the item he had purchased. This is not a huge a task.

These aspects involve managing information about the various products, cashier, purchased ,products and sale it, billing etc. This system provides an efficient way of managing the supermarket information.
