

All That Lies Within

Sebastian Brünink

All That Lies Within:

A Socio-Political Model of Lies in Russia Jason C. Vaughn, 2016-04-29 This book is written to examine Russian public opinion culture and society in the context of the lies liars and untruths consistent with but not exclusively part of the rule of Russia's second and fourth post Soviet President Vladimir Vladimirovich Putin Then it is to assess what future there is for Russia in view of Russia's peculiar socio political culture of parallel truth and untruth Based on new research literature and historical examination of untruth in Russia using political social cultural media and public opinion analysis this study develops and applies a new and novel approach or model's to the study of lies in Russia Further this book seeks to provide an understanding of Russia's socio political environment to outsiders not versed in the ins and outs of the influences causes and reasoning for the Russian government's and the Russian public's reactions to publicized events The Character Factor

James P. Pfiffner, 2004 Annotation The American president's character matters To most Americans it matters deeply But how do we define what character means and why can't we agree In this sober probing consideration of the character factor and the presidency veteran political analyst James P Pfiffner leads us through a survey of three aspects of presidential character that have proved problematic for recent chief executives lies promise keeping and sexual probity His goal is not to tell us which presidents have been good and which bad Rather he helps us think critically and impartially about complex character issues and invites us to reach our own conclusions The Character Factor avoids both moral judgments and cynicism It helps us look at our presidents and our presidential candidates without illusions knowing that flawed men can still be great leaders but that some flaws deserve defeat at the polls or even the ultimate presidential sanction impeachment **Farm**
