*Diverse educational contexts and research on metacognition and motivation to enhance self-directed learning* Bernadette Geduld,Byron J. Bunt,Divan Jagals,2025-02-17 This scholarly book explores the latest education research on metacognition and self directed learning providing practical insights for educators and students As the thirteenth volume in the NWU Self Directed Learning Series it focuses on developing metacognitive skills to enhance self regulation motivation and independent thinking key competencies for success in the 21st century Metacognition plays a vital role in learning helping students plan evaluate and self assess their progress Research shows that students with strong metacognitive strategies achieve better learning outcomes apply knowledge effectively and persist through academic challenges This book offers evidence based teaching strategies to support the development of self regulated learning and motivation in diverse educational settings It examines teaching behaviour and instructional methods that foster metacognitive growth in both basic and higher education With a particular focus on the South African education landscape it extends research in cognitive developmental and applied psychology Researchers and educators will find practical approaches for integrating metacognition into various disciplines making this book a valuable resource for both undergraduate and graduate education programmes      Alternative Ass Pgs-Math Matters Book 2 Lynch,1999-12 Based on the principles of the National Council of Teachers of Mathematics standards this textbook and supporting teacher materials offers opportunities for students to explore mathematics through cooperative learning to infer mathematical concepts through the use of manipulatives to speak and write about mathematics with confidence to make mathematical connections relating mathematical concepts to everyday life and to critically examine problems and arrive at solutions      **Geometry** Ron Larson,1995      **The Virginia Mathematics Teacher** ,1998  
**Current Index to Journals in Education** ,1999      **Mathematics Education as a Research Domain: A Search for Identity** Anna Sierpinska,Jeremy Kilpatrick,2014-02-19      **Mathematics Assessment** Gerald Kulm,1994-10-28 This book provides math teachers and those who work with them with a comprehensive and practical resource for planning and implementing alternative assessment in the classroom Drawing from his own experience working with teachers at several grade levels in a variety of settings Gerald Kulm offers hands on guidelines for assessing student understanding of procedures concepts and problem solving including advice on developing and interpreting assessment tasks assessing individual and group mathematical activities using scoring rubrics developing student portfolios and more Kulm provides specific tips and ideas for getting started and simple ways to adapt math activities and problems for assessment He includes numerous examples of student products such as puzzles projects problems interviews and group activities that can allow for individual differences in learning and productivity Kulm also offers a section of frank teacher written summaries that provide

firsthand insights into what worked and what did not The range of types of classes and assessment goals described in these summaries make it easy for nearly any teacher to find a situation similar to that of their own class and adapt the strategies that were successful

**Prentice Hall Informal Geometry** Philip L. Cox,1992 **A PRACTICAL APPROACH TO USING LEARNING STYLES IN MATH INSTRUCTION** Ruby Bostick Midkiff,Rebecca Davis Thomasson,1994-01-01 Although much attention has been given to the use of learning styles in the general curriculum and in teaching students to read the use of learning styles based instruction in the mathematics classroom has received limited attention Therefore the purpose of this book is to address the improvement of mathematics instruction through the use of learning styles based instruction Its goals are to give the reader an understanding of learning styles based instruction in mathematics of effective use of manipulatives in teaching various concepts at all grade levels of ways to develop spatial reasoning skills in students of different activities which accommodate a variety of learning styles and of authentic assessment in mathematics The book presents the use of learning styles based instruction as a powerful strategy which teachers can and should use with the result that teaching will be more effective less remediation will be necessary and the overall mathematics curriculum will be enhanced *Everyday Mathematics* University of Chicago. School Mathematics Project,2001 *Elementary and Middle School Mathematics* John A. Van de Walle,1998 John A Van de Walle has written a book that helps readers make sense of mathematics and become confident in their ability to teach mathematics to children K to 8 Elementary and Middle School Mathematics consists of 16 chapters reflecting the view that all mathematics can be taught through a problem solving approach that motivates children and builds their confidence as they learn This book thoroughly discusses the new standards and clearly develops four key aspects of teaching mathematics the nature of mathematics as a science of pattern and order an understanding of how children learn mathematics a problem solving view of teaching mathematics and specific methods for integrating assessment with instruction Simple yet effective classroom activities are woven throughout the chapters as well as suggestions for technology and literature
