VHS video recordings Multimedia packages are now rare in the marketplace but streaming audio and video are quite evident so examples now include those media Facsimile examples from the third edition have been retained and many new examples have been added Most catalogers today are using RDA in combination with MARC21 Accordingly in an appendix we have rendered each example in MARC21 format using the OCLC Connexion approach to MARC21 record formatting A lengthy bibliography in earlier editions has been replaced by a brief list in the introduction with pointers to online resources that are both current and constantly updated by working catalogers
