Communicating Gender Diversity Victoria Pruin DeFrancisco,Victoria Leto DeFrancisco,Catherine Helen Palczewski,2007-06-21 The purpose behind *Communicating Gender Diversity A Critical Approach* is not to provide any final conclusions about communicating gender Because gender is a constantly evolving concept both in terms of individuals gender identity development and the larger culture s predominant notions of gender such absolute claims are not possible Instead the intent is to better equip readers with tools with which

they can examine and make sense of the intersections of communication and gender. The text covers the variety of ways in which communication of and about gender and sex enables and constrains people's intersectional identities. The authors believe people are social actors and as such create meaning through their symbolic interactions. Thus the book's emphasis is not on how gender influences communication but on how communication constitutes gender. They also believe that people are capable of being self-reflective about communication processes and creative in generating new ways to play with symbols.

Democratic Governance, Law, and Development in Africa Maame Efua Addadzi-Koom, Michael Addaney, Lydia A. Nkansah, 2022-12-10. This volume analyses democratic governance, the rule of law and development in Africa. It is unique and timely. First, the theme and sub-themes were carefully selected to solicit quality chapters from academics, practitioners and graduate students on topical and contemporary issues in constitutional law, human rights and democratic governance in Africa. The chapters were subjected to a single blind peer review by experts and scholars in the relevant fields to ensure that high quality submissions are included. Due to the dearth of knowledge and studies on the chosen thematic areas, the publication will remain relevant after several years due to the timeless themes it covers. In this regard, this edited volume audits the progress of democratic consolidation, rule of law and development in Ghana with selected case studies from other African countries. This book is intended for higher education institutions, universities, institutes and centres, public libraries, general academics, practitioners and students of law, democracy, human rights and political science, especially those interested in African affairs.

It includes rich coverage of women with disabilities and on middle-aged and older women throughout.
