Abstract and Keywords

This chapter analyzes tactical intelligence, following a division by posture: offensive and mobile, and defensive or localized. There was an increase in the use of vanguards among the Greeks after the fourth century BC and among the Romans in the first. Cavalry widely used in this role. The role of reconnaissance in border security is then evaluated. It is noted that the *speculatores* who accompanied the legions left the field for the office sometime in the first century AD. Greek military intelligence never became professionalized, and did not ponder the sophistication of the prototypical organizations fielded by the tyrants of Cyprus and Sicily in the fourth century. Professionalism and unit identification in intelligence came neither to the *poleis* nor the kingdoms of Classical or Hellenistic Greece, and came finally to the Romans at least a century after they had pervaded the legions.

On a wall in the Ashmolean Museum in Oxford hangs a small funerary plaque, consigning to the underworld the shade of Valerius Paternus, speculator of the army of Britain.¹ We know little of who he was, other than that he had friends who thought well of him. Likewise, we know little of what he—as a speculator—did, other than scraps and allusions scattered over centuries, which are often at variance with each other. Was he a spy, a courier, an executioner, or a staff officer? Or was he all of these things?

The Treatment of the War Dead in Archaic Athens Cezary Kucewicz, 2020-12-10 Exploring the representations of the war dead in early Greek mythology particularly the Homeric poems and the Epic Cycle alongside iconographic images on black figure pottery and the evidence of funerary monuments adorning the graves of early Athenian elites this book provides much needed insight into the customs associated with the war dead in Archaic Athens It is demonstrated that this period had remarkably little in common with the much celebrated institutions of the Classical era standing in fact much closer to the hierarchical ideals enshrined in the epics of Homer and early mythology While the public burial of the war dead in Classical Athens has traditionally been a subject of much scholarly interest and the origins of the procedures described by Thucydides as *patrios nomos* are still a matter of some debate far less attention has been devoted to the Athenian war dead of the preceding era This book aims to redress the imbalance in modern scholarship and put the spotlight on the Athenian war dead of the Archaic period In addition the book deepens our understanding of the processes which led to the establishment of first public burials and the Classical customs of *patrios nomos* shedding significant light on the military cultural and social history of Archaic Athens Challenging previous assumptions and bringing new material to the table the book proposes a number of new ways to investigate a period where many ancestral customs were thought to have their roots

Triumphs in the Age of Civil War Carsten Hjort Lange,2016-08-11 Many of the wars of the Late Republic were largely civil conflicts There was therefore a tension between the traditional expectation that triumphs should be celebrated for victories over foreign enemies and the need of the great commanders to give full expression to their prestige and charisma and to legitimize their power Triumphs in the Age of Civil War rethinks the nature and the character of the phenomenon of civil war during the Late Republic At the same time it focuses on a key feature of the Roman socio political order the triumph and argues that a commander could in practice expect to triumph after a civil war victory if it could also be represented as being over a foreign enemy even if the principal opponent was clearly Roman Significantly the civil aspect of the war did not have to be denied Carsten Hjort Lange provides the first study to consider the Roman triumph during the age of civil war and argues that the idea of civil war as normal reflects the way civil war permeated the politics and society of the Late Roman Republic *A Companion to the Archaeology of the Roman Empire, 2 Volume Set* Barbara Burrell,2024-03-13 A one of a kind exploration of archaeological evidence from the Roman Empire between 44 BCE and 337 CE In *A Companion to the Archaeology of the Roman Empire* distinguished scholar and archaeologist Professor Barbara Burrell delivers an illuminating and wide ranging discussion of peoples institutions and their material remains across the Roman Empire Divided into two parts the book begins by focusing on the unifying factors institutions and processes that affected the entire empire This ends with a chapter by Professor Greg Woolf Ronald J Mellor Professor of Ancient History at UCLA which summarizes and enlarges upon the themes and contributions of the volume Meanwhile the second part brings out local patterns and peculiarities within the archaeological remains of the City of Rome as well as almost every province of its empire Each chapter is written by a noted scholar whose career has focused on the subject Chronological coverage for each chapter is formally 44 BCE to 337 CE but since material remains are not always so closely datable most chapters center on the first three centuries of the Common Era plus or minus 50 years In addition the book is amply illustrated and includes new and little known finds from oft ignored provinces Readers will also find A thorough introduction to the peoples and operations of the Roman Empire including not just how the center affected the periphery Romanization but how peripheral provinces operated on their own and among their neighbors Comprehensive explorations of local patterns within individual provinces Contributions from a diverse panel of leading scholars in the field A unique form of organization that brings out systems across the empire such as transport across sea rivers and roads monetary systems pottery and foodways the military construction and technology Perfect for graduate and advanced undergraduate students of archaeology and the history of the Roman Empire *A Companion to the Archaeology of the Roman Empire* will also earn a place in the libraries of professional archaeologists in other fields including Mayanists medievalists and Far Eastern scholars seeking comparanda and bibliography on other imperial structures *Handbook to Life in Ancient Greece* Lesley Adkins,Roy A.
