Andrea Phillips,Reesa Greenberg,T. J. Demos,Cecilia Sjöholm,Ekaterina Degot',2015 Ever since the nineteen nineties  
curatorial discourse has revolved around the figure of the professional curator Consequently curatorial politics is usually  
considered the direct result of a curator s deliberate acts and intentions Now however new institutional models and modes of  
exhibition practice together with key shifts in funding and collecting strategies have revealed aspects of curatorial politics  
over which the exhibition maker has little or no control The present volume presents a series of essays by noted art theorists  
and cultural scientists that go beyond the perspective of the individual curator to reveal these previously unexplored levels of
