The Translation Of Children's Literature A Reader Topics:

The Translation of Children's Literature Gillian Lathey, 2006-01-01 In the last few decades a number of European scholars have paid an increasing amount of attention to children's literature in translation. This book not only provides a synthetic account of what has been achieved in the field but also makes us fully aware of all the textual, visual, and cultural complexities that translating for children entails. Students of this subject have had problems in finding a book that attempted an up-to-date and comprehensive review of the field. Gillian Lathey's Reader does just this. Dr Piotr Kuhiwczak, Director, Centre for Translation and Comparative Cultural Studies, University of Warwick.

Translating Children's Literature Gillian Lathey, 2015-07-24 Translating Children's Literature is an exploration of the many developmental and linguistic issues related to writing and translating for children, an audience that spans a period of enormous intellectual progress and affective change from birth to adolescence. Lathey looks at a broad range of children's literature, from prose fiction to poetry and picture books. Each of the seven chapters addresses a different aspect of translation for children, covering narrative style and the challenges of translating the child's voice, the translation of cultural markers for young readers, translation of the modern picture book, dialogue, dialect, and street language in modern children's literature, read-aloud qualities, wordplay, onomatopoeia, and the translation of children's poetry, retranslation, retelling, and reworking. The role of translation for children within the global publishing and translation industries. This is the first practical guide to address all aspects of translating children's literature, featuring extracts from commentaries and interviews with published translators of children's literature, as well as examples and case studies across a range of languages and texts. Each chapter includes a set of questions and exercises for students. Translating Children's Literature is essential reading for professional translators, researchers, and students on courses in translation studies or children's literature.

Keywords for Children's Literature, Second Edition Philip Nel, Lissa Paul, Nina Christensen, 2021-01-12 Introduces key terms, global concepts, debates, and histories for Children's Literature in an updated edition. Over the past decade, there has been a proliferation of exciting new work across many areas of children's literature and culture. Mapping this vibrant scholarship, the Second Edition of *Keywords for Children's Literature* presents original essays on essential terms and concepts in the field. Covering ideas from aesthetics to voice, an impressive multidisciplinary cast of scholars explores and expands on the vocabulary central to the study of children's literature. The second edition of this *Keywords* volume goes beyond disciplinary and national boundaries. Across fifty-nine print essays and nineteen online essays, it includes contributors from twelve countries and an international advisory board from over a dozen more. The fully revised and updated selection of critical writing: more than half of the essays are new to this edition, reflects an intentionally multinational perspective, taking into account non-English traditions and what childhood looks like in an age of globalization. All authors trace their keyword's uses and meanings from translation to poetry, taboo to diversity and trauma to nostalgia. The book's scope, clarity, and interdisciplinary play between concepts make this new

edition of *Keywords for Children's Literature* essential reading for scholars and students alike **The Routledge Handbook of Translation Studies** Carmen Millán, Francesca Bartrina, 2013-03-05 The Routledge Handbook of Translation Studies provides a comprehensive state of the art account of the complex field of translation studies Written by leading specialists from around the world this volume brings together authoritative original articles on pressing issues including the current status of the field and its interdisciplinary nature the problematic definition of the object of study the various theoretical frameworks the research methodologies available The handbook also includes discussion of the most recent theoretical descriptive and applied research as well as glimpses of future directions within the field and an extensive up to date bibliography The Routledge Handbook of Translation Studies is an indispensable resource for postgraduate students of translation studies

Children's Literature in the Reading Program Deborah A. Wooten, Lauren Aimonette Liang, Bernice E. Cullinan, 2018-06-15 This indispensable teacher resource and course text now revised and updated addresses the whys and how tos of incorporating outstanding children's literature into the K-8 reading program A strong emphasis on diverse literature is woven throughout the fifth edition with chapters emphasizing the need for books that reflect their readers and presenting dozens of carefully reviewed books that teachers will be eager to use in the classroom Leading authorities provide advice on selecting texts building core literacy and literary skills supporting struggling readers and maximizing engagement The volume offers proven strategies for teaching specific genres and formats such as fiction nonfiction picturebooks graphic novels biographies and poetry This title is a copublication with the International Literacy Association New to This Edition Many new teaching ideas and book recommendations with an increased focus on culturally diverse literature Scope expanded from K-5 to K-8 Chapter on using read alouds and silent reading Chapters on diverse literature about the arts and on transitional chapter books Chapter on engaging struggling readers with authentic reading experiences

Translating for Children Ritta Oittinen, 2002-06-01 *Translating for Children* is not a book on translations of children's literature but a book on translating for children It concentrates on human action in translation and focuses on the translator the translation process and translating for children in particular Translators bring to the translation their cultural heritage their reading experience and in the case of children's books their image of childhood and their own child image In so doing they enter into a dialogic relationship that ultimately involves readers the author the illustrator the translator and the publisher What makes *Translating for Children* unique is the special attention it pays to issues like the illustrations of stories the performance like reading aloud of the books in translation and the problem of adaptation It demonstrates how translation and its context takes precedence can take over efforts to discover and reproduce the original author's intentions Rather than the authority of the author the book concentrates on the intentions of the readers of a book in translation both the translator and the target language readers

Children's Literature in Translation Jan Van Coillie, Walter P. Verschueren, 2014-07-16 Children's classics from *Alice in Wonderland* to the works of Astrid Lindgren Roald Dahl J.K. Rowling and Philip Pullman are now

generally recognized as literary achievements that from a translator's point of view are no less demanding than serious adult literature. This volume attempts to explore the various challenges posed by the translation of children's literature and at the same time highlight some of the strategies that translators can and do follow when facing these challenges. A variety of translation theories and concepts are put to critical use including Even Zohar's polysystem theory, Toury's concept of norms, Venuti's views on foreignizing and domesticating translations and on the translator's visibility, and Chesterman's prototypical approach. Topics include the ethics of translating for children, the importance of childhood images, the revelation of the translator in prefaces, the role of translated children's books in the establishment of literary canons, the status of translations in the former East Germany, questions of taboo and censorship in the translation of adolescent novels, the collision of norms in different translations of a Swedish children's classic, the handling of cultural intertextuality in the Spanish translations of contemporary British fantasy books, strategies for translating cultural markers such as juvenile expressions, functional shifts caused by different translation strategies, dealing with character names and complex translation strategies used in dealing with the dual audience in Hans Christian Andersen's fairy tales and in Salman Rushdie's *Haroun and the Sea of Stories*.

The Translation of Violence in Children's Literature Marija Todorova, 2021-11-29. Considering children's literature as a powerful repository for creating and proliferating cultural and national identities, this monograph is the first academic study of children's literature in translation from the Western Balkans. Marija Todorova looks at a broad range of children's literature from fiction to creative non-fiction and picture books across five different countries in the Western Balkans, with each chapter including detailed textual and visual analysis through the predominant lens of violence. These chapters raise questions around who initiates and effectuates the selection of children's literature from the Western Balkans for translation into English and interrogate the role of different stakeholders such as translators, publishers, and cultural institutions in the representation and construction of these countries in translated children's literature, both in text and visually. Given the combination of this study's interdisciplinary nature and Todorova's detailed analysis, this book will prove to be an essential resource for professional translators, researchers, and students in translation studies, children's literature, or area studies, especially that of countries in the Western Balkans.

The Translator, 2006. *Reader's Guide to Periodical Literature Supplement*, 1925.

The Role of Literature in Reading Instruction Dorothy S. Strickland, 1981. The four papers in this collection focus on cross-cultural concerns related to literature and literacy. The first paper discusses the development of children's literature as a field of study and describes the emerging interest in children's literature as reflected in library collections, exhibits, and book fairs, professional conferences, professional literature, and teacher education programs around the world. The second paper explores the problems connected with the translation of books for children. It describes the problems involved in the selection of books, the quality of the translation, and the difficulty in reviewing the books. The paper stresses the importance of making books from all countries available to all children in order

to help them understand and appreciate the cultural diversity of the world The third paper reports on the use of children's literature in early childhood education in Japan and describes how literature is used in the schools to support the social and cognitive development of young children The final paper focuses on what various countries are doing to promote reading among children as well as the general public It describes book promotion projects and programs designed to develop lifelong reading habits FL

The Role of Translators in Children's Literature Gillian Lathey, 2010-09-13 This book offers a historical analysis of key classical translated works for children such as writings by Hans Christian Andersen and Grimms tales Translations dominate the earliest history of texts written for children in English and stories translated from other languages have continued to shape its course to the present day Lathey traces the role of the translator and the impact of translations on the history of English language children's literature from the ninth century onwards Discussions of popular texts in each era reveal fluctuations in the reception of translated children's texts as well as instances of cultural mediation by translators and editors Abridgement adaptation and alteration by translators have often been viewed in a negative light yet a closer examination of historical translators prefaces reveals a far more varied picture than that of faceless conduits or wilful censors From William Caxton's dedication of his translated *History of Jason* to young Prince Edward in 1477 to the intent he may begynne to lerne read English to Edgar Taylor's justification of the first translation into English of Grimms tales as a means of promoting children's imaginations in an age of reason translators have recorded in prefaces and other writings their didactic religious aesthetic financial and even political purposes for translating children's texts
