## **The Second World War Antony Beevor:**

**The Second World War** Antony Beevor, 2012-06-05 A masterful and comprehensive chronicle of World War II by internationally bestselling historian Antony Beevor. Over the past two decades Antony Beevor has established himself as one of the world's premier historians of WWII. His multi-award-winning books have included *Stalingrad* and *The Fall of Berlin 1945*. Now in his newest and most ambitious book he turns his focus to one of the bloodiest and most tragic events of the twentieth century: the Second World War. In this searing narrative that takes us from Hitler's invasion of Poland on September 1st 1939 to V J day on August 14 1945 and the war's aftermath Beevor describes the conflict and its global reach one that included every major power. The result is a dramatic and breathtaking single volume history that provides a remarkably intimate account of the war that more than any other still commands attention and an audience. Thrillingly written and brilliantly researched Beevor's grand and provocative account is destined to become the definitive work on this complex tragic and endlessly fascinating period in world history and confirms once more that he is a military historian of the first rank.

*Movies as History* Marie L. Aquila, 2014-04-22 Popular movies can enhance the study of history. A dominant form of entertainment throughout the 20th century they can serve as nontraditional primary sources and offer remarkable opportunities to observe attitudes about social concerns gender or racial issues politics and historical events that were current when the movies were made. This book is a topical guide for educators providing detailed analysis of 35 movies followed by discussion questions that will help students interpret how each movie's content and themes reflect the times when it was made. The book covers four main topics: the Great Depression World War II the early years of the Cold War and the changing expectations and images of women in movies from 1930 to 1970. An historical overview chronicles how each topic was treated in movies from that time period. The movies should have wide appeal in grades 7 through 12 and can help students learn to think more critically about the images and messages that appear in popular media today.

**Princes at War** Deborah Cadbury, 2015-03-10 In 1936 the British monarchy faced the greatest threats to its survival in the modern era: the crisis of abdication and the menace of Nazism. The fate of the country rested in the hands of George V's sorely unequipped sons: a stammering King George VI terrified that the world might discover he was unfit to rule; a dull-witted Prince Henry who wanted only a quiet life in the army; the too-glamorous Prince George the Duke of Kent a reformed hedonist who found new purpose in the RAF and would become the first royal to die in a mysterious plane crash; the Duke of Windsor formerly King Edward VIII deemed a Nazi sympathizer and traitor to his own country a man who had given it all up for love. *Princes at War* is a riveting portrait of these four very different men miscast by fate, one of whom had to save the monarchy at a moment when kings and princes from across Europe were washing up on England's shores as the old order was overturned. Scandal and conspiracy swirled around the palace and its courtiers among them dangerous cousins from across Europe's royal families gold-digging American socialite Wallis Simpson and the King's Lord Steward upon whose

estate Hitler's deputy Rudolf Hess parachuted seemingly by coincidence as London burned under the Luftwaffe's tireless raids Deborah Cadbury draws on new research personal accounts from the royal archives and other never before revealed sources to create a dazzling sequel to *The King's Speech* and tell the true and thrilling drama of Great Britain at war and of a staggering transformation for its monarchy

*Quest for Decisive Victory* Robert Michael Citino, 2002 Since the earliest days of warfare military operations have followed a predictable formula after a decisive battle an army must pursue the enemy and destroy its organization in order to achieve a victorious campaign But by the mid 19th century the emergence of massive armies and advanced weaponry and the concomitant decline in the effectiveness of cavalry had diminished the practicality of pursuit producing campaigns that bogged down short of decisive victory Great battles had become curiously indecisive decisive campaigns virtually impossible
