Arthur Machen

The Terror Chaosium Inc:

The Terror and Other Stories Arthur Machen, 2005 Arthur Machen produced some of the most evocative weird fiction in all literary history. Written with impeccably mellifluous prose infused with a powerful mystical vision and imbued with a wonder and terror that he felt with every fiber of his being, his novels and tales will survive when works of far greater technical accomplishment fall by the wayside. *The Terror* is a short novel that inspired a host of imitations of its basic plot: animals turning against human beings ranging from Philip Macdonald's brief tale *Our Feathered Friends* to Daphne du Maurier's much better known but sadly mediocre novelette *The Birds*. *The Terror* reveals several features characteristic of Machen's later fiction. The first perhaps is frank autobiography. The first person narrative voice not only seems to be Machen himself but he plays upon his own role as a journalist and reporter.

Monsters, Aliens, and Holes in the Ground, Deluxe Edition Stu Horvath, 2023-10-10 A richly illustrated encyclopedic deep dive into the history of roleplaying games. When Gary Gygax and Dave Arneson released *Dungeons & Dragons* in 1974 they created the first roleplaying game of all time. Little did they know that their humble box set of three small digest-sized booklets would spawn an entire industry practically overnight. In *Monsters, Aliens, and Holes in the Ground* Stu Horvath explores how the hobby of roleplaying games, commonly known as RPGs, blossomed out of an unlikely pop culture phenomenon and became a dominant gaming form by the 2010s. Going far beyond *D&D*, this heavily illustrated tome covers more than three hundred different RPGs that have been published in the last five decades. *Monsters, Aliens, and Holes in the Ground* features, among other things, bunnies, ghostbusters, soap operas, criminal bears, space monsters, political intrigue, vampires, romance, and of course, some dungeons and dragons. In a decade-by-decade breakdown, Horvath chronicles how RPGs have evolved in the time between their inception and the present day, offering a deep and gratifying glimpse into a hobby that has changed the way we think about games and play. The deluxe edition will include a foil-stamped cover and slipcase with a cloth binding, a ribbon-gilded edge, and an 8.5x11 inch cardstock poster of the regular edition.

Game Preview Nicolae Sfetcu, 2014-05-04 A guide for game preview and rules history, definitions, classification, theory, video game consoles, cheating links, etc. While many different subdivisions have been proposed, anthropologists classify games under three major headings and have drawn some conclusions as to the social bases that each sort of game requires. They divide games broadly into games of pure skill such as hopscotch and target shooting, games of pure strategy such as checkers, go, or tic-tac-toe, and games of chance such as craps and snakes and ladders. A guide for game preview and rules history, definitions, classification, theory, video game consoles, cheating links, etc.
