

World War II,

1939–1945 Previewing Main Ideas

Germany, Italy, and Japan tried to build empires. They began their expansion by conquering other nations and dominating them politically and economically.

Geography What areas did the Axis powers control at the height of their power?

Far-reaching developments in science and technology changed the course of World War II. Improvements in aircraft, tanks, and submarines and the development of radar and the atomic bomb drastically altered the way wars were fought.

Geography Why might submarines have been a key weapon for the Axis powers in their fight against Great Britain?

Fighting the Axis terror weakened the economies of Great Britain, the Soviet Union, and other European countries. In contrast, when the United States entered the war, its economy grew sharply. The strength of the American economy bolstered the Allied war effort.

Geography In terms of location, why was the American economy able to function at a high level while the European economies struggled?
