Lab Dynamics Carl M. Cohen, Suzanne L. Cohen, 2018 This is the third and completely revised edition of a now classic handbook that focuses specifically on management challenges faced by research scientists and technical professionals In Lab Dynamics Carl and Suzanne Cohen draw on their unparalleled professional experience Carl as a scientist and Suzanne as a psychologist and as workshop directors to provide invaluable practical advice on how to succeed in science for working scientists and those in or preparing for management or leadership roles The book is also required reading for anyone with an administrative role in the research enterprise who must understand that world and its complexities Every chapter from the second edition has been revised updated and supplemented with new illustrations and graphics many new case studies have been added to illustrate themes and techniques Two new chapters have been added Lab Dynamics Carl M.

Cohen, Suzanne L. Cohen, 2005 Scientists are trained in scholarship and technical skills but not typically in how to deal with their peers supervisors or staff who report to them Yet even a first rate research project can fail or flounder if the people concerned can't get along Lab Dynamics is a book about the challenges of doing science and dealing with the individuals involved including yourself The authors a scientist and a psychotherapist draw on principles of group and behavioral psychology but speak to scientists in their own language about their own experiences They offer in depth practical advice real life examples and exercises tailored to scientific and technical workplaces on topics as diverse as conflict resolution negotiation dealing with supervision working with competing peers and making transitions between academia and industry This is a uniquely valuable contribution to the scientific literature on a subject of direct importance to lab heads postdocs and students It is also required reading for senior staff concerned about improving efficiency and effectiveness in academic and industrial research settings
