Bengali Science Fiction Story:

THE GREEN MEN Satyajit Ray, Premendra Mitra, Adrish Bardhan, Dilip Roychowdhury, 2021-05-02 The story that vanished into thin air Many years ago when the triumphant march of science fiction in Bengali literature had just begun the Sahityabashor programme of All India Radio featured an extraordinary story read by Satyajit Ray Premendra Mitra Dilip Roychowdhury and Adrish Bardhan A single story None of them revealed the entire plot to the others Premendra Mitra began it and Satyajit Ray ended it Dilip Roychowdhury and Adrish Bardhan took the story forward None of the three had told one another or Ray how the story should end He composed the final episode with a combination of marvellous imaginativeness and superb craft And he created a sensation when telling his story With his inimitable baritone he proved that writing and narrating are not the same thing that the written word can create a deeply resounding work of art through speech He had asked for a glass of water to take into the studio When the recording was complete everyone who listened to the playback was overwhelmed The title of The Green Men was given by Premendra Mitra The idea for a story with different episodes contributed by various writers was his too The story however had vanished into thin air after being read on air though the tape survives It was published twice in All India Radio s Betar Jagat magazine and subsequently in Fantastic magazine It does not appear in any collection of stories by Satyajit Ray Premendra Mitra Dilip Roychowdhury or Adrish Bardhan This is the first ever English translation of The Green Men being published as an independent story We thank and acknowledge Kalpabiswa for publishing the story in Bengali as Shobuj Manush The Inhumans and Other Stories Bodhisattva Chattopadhyay, 2024-03-12 The first English translation of a cult science fiction favorite by Hemendra Kumar Roy one of the giants of early Bangla literature and other sf stories from the colonial period in India Kalpavigyan science fiction written to excite Bengali speakers about science as well as to persuade them to evolve beyond the limitations of religion caste and class became popular in the early years of the twentieth century Translated into English for the first time in this collection you ll discover The Inhumans 1935 Hemendrakumar Roy s satirical novella about a lost race of Bengali supermen in Uganda Also included are Jagadananda Ray s Voyage to Venus 1895 Nanigopal Majumdar s The Mystery of the Giant 1931 and Manoranjan Bhattacharya s The Martian Purana 1931 *Arun Deep's Self-Help to I.C.S.E. recently been established in Film and Media Studies Furthermore so far attention has focused on Hollywood and European cinema in this regard Reading sound from other world cinemas particularly those from the global South remains underexplored As India is currently the world s largest producer of films with a formidable global presence this book bridges the gap with a collection of interviews introducing leading film industry sound practitioners from the subcontinent The book examines historical developments from the advent of the talkies to present day digital cinema productions providing an embodied understanding of the unique Indian film sound world with new perspectives on cinematic narration in the practitioner s own words

The Scientific Edge Jayant V Narlikar,2003-08-04 India has a rich history of scientific accomplishments In the fifth century nearly one millennium before Copernicus the Indian astronomer and mathematician Aryabhata theorized that the earth spins on its axis Likewise in the twentieth century physicist Meghnad Saha s ionization equation opened the door to stellar astrophysics But India s scientific achievements have occurred as flashes of brilliance rather than as a clear trajectory of progress So how did India with its historic university system and excellent observatories lose its scientific edge Cosmologist founder director of the Inter University Centre for Astronomy and Astrophysics and science fiction author Jayant V Narlikar tracks the highs and lows of Indian science across the millennia distinguishing fact from fiction Through a lively narrative of breakthroughs and failures he explores the glories of India s scientific advances and questions the more fanciful so called discoveries His essays are invigorated by his excitement for new findings and he argues passionately for preserving the true scientific temperament instead of granting legitimacy to such pseudosciences as astrology Above all Narlikar raises issues that both the layperson and the scientist need to consider as India seeks to lead the world in information technology and biotechnology
