COURSE DESCRIPTION

Missiology is the science of mission. It combines intercultural studies, anthropology, history, cross-cultural communications and theology. This introductory overview of the church's global mission will include a look at biblical motivations, historical background and current strategies.

This course does not seek to transform everyone into a global missionary. It will, however, seek to motivate everyone to be a mobilizer for the cause of world evangelism.

In terms of specific course goals, this course aims to equip students to:

- Outline a biblical rationale and the theological imperative for world evangelization
- Identify and describe some key movements and individuals in the history of the global expansion of the Christian movement including those within one's own denomination
- Explain the task yet to be accomplished and describe important trends and selected strategies being used in contemporary world mission outreach
- List basic components necessary for local congregations to be involved in the missionary task of the Church.

In terms of ordination requirements in the Church of the Nazarene, this course should help produce in students the following outcomes:

1. Ability to understand and articulate the biblical, historical and theological bases for Christian mission
2. Ability to describe how the church implemented its mission in the various periods of Church History
3. Ability to describe the general story line of the expansion of the Church
4. Ability to identify and describe the significance of major figures, themes and events of various periods of Church History as they relate to missionary outreach
5. Ability to sensitively explain the nature of cultures
6. Ability to describe and interpret the relationship between culture and individual behavior
7. Ability to identify and apply the principles of cross-cultural communications
8. Ability to describe basic missiological principles
9. Ability to think globally and engage cross-culturally for the purpose of mission
10. Ability to envision contextualized worship
11. Ability to discern and make theologically based ethical decisions in the midst of a complex and/or paradoxical context
12. Ability to synthesize, analyze, reason logically for discernment, assessment and problem solving and live with ambiguity
