Parisaninternationalconferencededicatedtothepromotionandadvan ment of all aspects of parallel computing The major themes can be divided into the broad categories of hardware software algorithms and applications for p allel computing The

objective of Euro Par is to provide a forum within which to promote the development of parallel computing both as an industrial technique and an academic discipline extending the frontier of both the state of the art and the state of the practice. This is particularly important at a time when parallel computing is undergoing strong and sustained development and experiencing real industrial take up. The main audience for and participants in Euro Par are seen as researchers in academic departments, government laboratories and industrial organisations. Euro Par's objective is to become the primary choice of such professionals for the presentation of new results in their specific areas. Euro Par is also interested in applications which demonstrate the effectiveness of the main Euro Par themes. There is now a permanent Web site for the series <http://brahms.fmi.uni-passau.de/c1/europar> where the history of the conference is described. Euro Par is now sponsored by the Association of Computer Machinery and the International Federation of Information Processing. Euro Par 99 follows the format of the past four conferences and consists of a number of topics each individually monitored by a committee of four. There were originally 23 topics for this year's conference. The call for papers attracted 343 submissions of which 188 were accepted. Of the papers accepted 4 were judged as distinguished, 111 as regular and 73 as short papers.
