Chinese Foreign Policy Barbara Barnouin, Yu Changgen, 2013-10-28 First published in 1998 In this study what is proposed here is first of all to examine the effect it had on the very functioning of the Chinese Ministry of Foreign Affairs and how the turmoil of the Cultural Revolution of which the country had become a victim spilled over to this highly elitist and prestigious Ministry In summary it focuses on the chaos that engulfed the institution

Chinese Foreign Relations Robert G. Sutter, 2012-01-26 This comprehensive introduction to Chinese foreign relations examines the opportunities and limits China faces as it seeks growing international influence Tracing the record of twists and turns in Chinese foreign relations since the end of the Cold War Robert G Sutter provides a nuanced analysis that shows that despite its growing power Beijing is hampered by both domestic and international constraints Newly revised this edition features more extensive treatment of China's role in the international economy and greater discussion of its relations with the developing world Overall Sutter's balanced and thorough assessment shows China's leaders exerting more influence in world affairs but remaining far from dominant Facing numerous contradictions and trade offs they move cautiously as they deal with a complex global environment

The European Union and China Thomas Christiansen, Emil Kirchner, Uwe Wissenbach, 2018-12-12 This accessible text offers a comprehensive analysis of the European Union EU China relationship as one of the most important in global politics today Both are major

players on the world stage accounting for 30% of trade and nearly a quarter of the world's population. This text shows how, despite many differences in political systems and values, China and the EU have developed such a close, regular set of interactions at multiple levels, from political/strategic to economic and individual. The authors start with an historical overview of the domestic politics and foreign policy apparatus of each partner to show the context in which external relations are devised. From this foundation, each key dimension of the relationship is analysed: trade and monetary policy, security, culture, and society. The authors show the relative merits of different theoretical perspectives and outline what is next for this complex, ever-changing relationship. At every step, the success of each partner in persuading the other of changing their positions for key strategic interests is explored. What emerges is a multifaceted picture of relations between two sides that are fundamentally different kinds of actors in the international system yet have many mutual interests and a common stake in the stability of global governance. The first major text to offer an accessible introduction to the multifaceted nature of EU-China relations, this book is an ideal companion for upper undergraduate and postgraduate students on Politics, International Relations, and European Studies courses.

The Foreign Policy of China King C. Chen, 1972 Reform, Identity and Chinese Foreign Policy Zhiyu Shi, 2000 **Chinese Foreign Policy** Evan Luard, 1957 **Chinese Foreign Policy** Thomas W. Security, Strategy, and the Logic of Chinese Foreign Policy Jonathan D. Pollack, 1981 **Globalization** Meshack M. Sagini, 2014-11-21. *Globalization: The Paradox of Organizational Behavior* is an excellent resource for undergraduate and graduate students, professors, policy makers, and the intelligentsia worldwide. Sagini explores the text's major themes using historical, materialistic, and imperialistic factors. The globalization movement is shaped by economic, political, technological, and cultural forces that transform human collectivities. Instability and related concomitant issues such as disease, energy, security, and terrorism challenge the reconstructive role of internal and external factors in foreign policy decision-making. The implications of the global forces on the divided world of gated communities, urban and village ghettos, national borders, and cultural decay could be far-reaching if leaders fail to redesign and implement effective governance models.
