SIEMENS
Ingenuity for life

Accelerating innovation with unified application lifecycle management

Real-world business best practices

Accelerating innovation has become essential for organizations around the globe to meet evergrowing market pressures. This innovation is increasingly achieved via software for applications and embedded systems, which must evolve as fast as organizations can develop them. But shortening release intervals combined with the complexities of global ecosystems have introduced many new challenges and risks. Looking into the Siemens PLM Polarion user base of more than 2,500,000 worldwide, we have been able to discern a common set of success factors that enable leading companies to surmount these complexities with real-time collaboration, roles-based transparency and comprehensive traceability.

Application Lifecycle Management White Papers
