

1. Discuss how classification systems have undergone several changes over a period of time?

☞ Earlier the system of classification was based on superficial resemblances. These systems were **artificial**. E.g. animals were classified as aquatic, terrestrial and aerial. Plants were classified as herbs, shrubs and trees based on their habit.

Artificial systems were followed by **natural system**. It is based on structural and morphological, physiological, cytological, ontogeny and taxonomic characters.

Now a days, the organisms are classified on the basis of their evolutionary interrelationship. Such classifications are **phylogenetic**.

Recently, **phenetic classification** has evolved. It is a system of phylogenetic classification which is based on affinities, similarities and dissimilarities of characteristics present in the present-day organisms without searching for the evolution and diversification of these traits in their fossil ancestors.

2. State two economically important uses of: (a) heterotrophic bacteria (b) archaebacteria

☞ (a) heterotrophic bacteria:

They act as natural scavengers by removing harmful organic wastes.

In soil, they improve the fertility of soil by formation of humus, manure etc.

Some bacteria are used to produce lactic acid, curd, cheese, butter, vinegar etc.

(b) Archaebacteria:

These are used in the production of methane (biogas) from animal wastes. Biogas is used to run a generator that produces electricity, e. g., *Halobacterium*, *Thermoplasma*.

3. What is the nature of cell-walls in diatoms?

☞ Diatoms have siliceous cell walls forming two thin overlapping shells, which fit together as in a soap box. The cell wall deposit of diatoms over billions of years in their habitat is known as '**diatomaceous earth**'.

4. Find out what do the terms 'algal bloom' and 'red-tides' signify.

☞ The rapid increase in populations of algae and other phytoplankton, in particular cyanobacteria that occurs in inland water systems, such as lakes is called **algal bloom**.

**Red diatoflagellates** (E.g. *Gonyaulax*) undergo rapid multiplication so that the sea appears red. This phenomenon is called **red tides**. They release toxins that kill marine animals like fishes.

5. How are viroids different from viruses?

☞ Differences between virus and viroid:

Virus	Viroid
It is a nucleoprotein particle.	It is an RNA particle.
Nucleic acid can be DNA or RNA.	It is formed of only RNA
A protein covering or coat is present.	A protein coat is absent.
Large sized.	Smaller sized.
It infects all types of organisms.	It infects only plants.

6. Describe briefly the four major groups of Protozoa.

☞ 4 major groups of protozoans:

- **Amoeboid protozoans:** They live in fresh water, sea water or moist soil. They move and capture prey by putting out **pseudopodia** (false feet). E.g. Amoeba. Marine forms have silica shells on their surface. Some of them are parasites. E.g. *Entamoeba*.
- **Flagellated protozoans:** They are either free-living or parasitic. They have **flagella**. The parasitic forms cause diseases such as sleeping sickness. E.g. *Trypanosoma*.
- **Ciliated protozoans:** They are aquatic, actively moving organisms using thousands of **cilia**. They have a cavity (gullet) that opens to outside. By the movement of cilia, the water with food enters gullet. E.g. *Paramecium*.
- **Sporozoans:** They are organisms that have an infectious spore-like stage in their life cycle. E.g. *Plasmodium* (malarial parasite).

7. Plants are autotrophic. Can you think of some plants that are partially heterotrophic?

### **Biological Classification Answers Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Biological Classification Answers has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Biological Classification Answers has opened up a world of possibilities. Downloading Biological Classification Answers provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Biological Classification Answers has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Biological Classification Answers. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Biological Classification Answers. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Biological Classification Answers, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus

software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Biological Classification Answers has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### FAQs About Biological Classification Answers Books

1. Where can I buy Biological Classification Answers books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Biological Classification Answers book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Biological Classification Answers books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Biological Classification Answers audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.

8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Biological Classification Answers books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
