### CHAPTER 10 Section 1

#### Reading Comprehension 3

- To make laws.
- Historical: British Parliament had two houses and so did most of the colonies, so that's the system with which the Framers were familiar.  
Practical: The States could not all agree on either proportional or equal representation because the populations were so varied. The only way to get them to agree was to have two houses.  
Theoretical: The Framers thought it would be easy for Congress to become too powerful, so dividing it would ensure that each house checked the other.
- Some States had much larger or smaller populations than others. The large States would not have agreed to a Congress with equal representation for each state, while the small States would not have agreed to a Congress with representation based on population.
- a. term; b. session; c. session
- A term is the period between noon on January 3 following an election and noon on January 3 following the next election.
- A session is the period of time during which, each year, Congress assembles and conducts business.
- The President may convene a special session in an emergency and dismiss Congress when the two houses cannot agree on a date for adjournment.
- Before World War II, Congress met only for four or five months per year; today, they are in session for most of the year.

#### Reading Comprehension 2
