Driver Distraction and Inattention John D. Lee, 2017-07-12 It is estimated that in the United States around 20 percent of all Police reported road crashes involve driver distraction as a contributing factor This figure increases if other forms of inattention are considered Evidence reviewed in this volume suggests that the situation is similar in other countries and that driver distraction and inattention are even more dangerous as contributing factors in crashes than drug and alcohol intoxication Having a solid evidence base from which to develop injury countermeasures is a cornerstone of road safety management This book adds to the accumulating evidence base on driver distraction and inattention With 24 chapters by 52 authors from more than 10 countries it provides important new perspectives on the definition and meaning of driver distraction and inattention the mechanisms that characterize them the measurement of their

effects strategies for mitigating their effects and recommendations for further research The goal of this book is to inspire further research and countermeasure development to prevent and mitigate the potentially adverse effects of driver distraction and driver inattention and in doing so to save lives
