

CCNA Security 2.0

Scope and Sequence

Last Updated August 26, 2015

Target Audience

The Cisco CCNA[®] Security course is designed for Cisco Networking Academy[®] students seeking career-oriented, entry-level security specialist skills. Target students include individuals enrolled in technology degree programs at institutions of higher education and IT professionals who want to enhance their core routing and switching skills.

CCNA Security provides a next step for CCENT or CCNA Routing and Switching students who want to expand their skill set to prepare for a career in network security.

Prerequisites

CCNA Security students should have the following skills and knowledge:

- CCENT-level networking concepts and skills
- Basic PC and Internet navigation skills

Target Certifications

The CCNA Security curriculum prepares students for the Implementing Cisco Network Security (IINS) certification exam (210-260), leading to the CCNA Security certification.

Curriculum Description

CCNA Security equips students with the knowledge and skills needed to prepare for entry-level security specialist careers. This course is a hands-on, career-oriented e-learning solution that emphasizes practical experience. It is a blended curriculum with both online and classroom learning. CCNA Security aims to develop an in-depth understanding of network security principles as well as the tools and configurations required to secure a network.

Various types of hands-on labs provide practical experience, including procedural and troubleshooting labs, skills integration challenges, and model building. All hands-on labs in the course can be completed on actual physical equipment or in conjunction with the NDG NETLAB solution. Most chapters include Packet Tracer-based skills integration challenges that are cumulative throughout the course.

Curriculum Objectives

CCNA Security helps students develop the skills needed for entry-level network security career opportunities and prepare for the CCNA Security certification. It provides a theoretically rich, hands-on introduction to network security, in a logical sequence driven by technologies.

The goals of CCNA Security are as follows:

- Provide an in-depth, theoretical understanding of network security
- Provide students with the knowledge and skills necessary to design and support network security
