C how to Program
Paul J. Deitel, Harvey M. Deitel, 2015-12-21 For courses in computer programming This package contains MyProgrammingLab
C How to Program is a comprehensive introduction to programming in C Like other texts of the Deitels How to Program
series the book serves as a detailed beginner source of information for college students looking to embark on a career in
coding or instructors and software development professionals seeking to learn how to program with C The Eighth Edition
continues the tradition of the signature Deitel Live Code approach presenting concepts in the context of full working
programs rather than incomplete snips of code This gives students a chance to run each program as they study it and see
how their learning applies to real world programming scenarios Personalize Learning with MyProgrammingLab This package
includes MyProgrammingLab an online homework tutorial and assessment program designed to work with this text to
engage students and improve results Within its structured environment students practice what they learn test their
understanding and pursue a personalized study plan that helps them better absorb course material and understand difficult
concepts MyProgrammingLab should only be purchased when required by an instructor Please be sure you have the correct
