Artificial Intelligence Applications in Higher Education Helen Crompton, Diane Burke, 2024-10-31 Artificial Intelligence Applications in Higher Education offers direct examples of how artificial intelligence systems can be applied in today's higher education contexts. As the use of AI rapidly advances within colleges and universities worldwide, there is a pressing need to showcase the challenges, opportunities, and ethical considerations that are inherent in deploying these advanced computational tools. This book highlights the multifaceted roles of AI across teaching and learning, institutional administration, student data management, and beyond. Its collected case studies furnish actionable insights into enhancing academic institutions and addressing diverse learning priorities such as motivation, engagement, feedback, and achievement goals. This valuable reference for researchers, designers, administrators, teaching faculty, and graduate students across various university programs offers fresh perspectives on generative AI, adaptive learning, intelligent tutoring systems, chatbots, predictive technologies, remote learning, and more.

Innovations in International Student Enrollment: Global Strategies, Digital Transformation, and Emerging Perspectives Clay Harmon, Krishna Bista, 2025-11-05 This volume examines international student enrollment from multiple perspectives across the globe. Contributors explore how digital transformation, artificial intelligence, and new marketing strategies are reshaping recruitment and engagement while also addressing the cultural, political, and social factors that influence the international student experience. The book includes case studies from the United States, Latin America, Asia, and Africa, showcasing the interplay between technology, policy, and student success. Readers will find discussions that range from the role of English language programs in soft diplomacy to the impact of creative economies in Indonesia, from Japanese enrollment rebounds to the challenges faced by Mexican and Brazilian students, and from the promises of AI in higher education to the dilemmas of fostering democracy and inclusion in classrooms and research. Together, these contributions illustrate the complex realities of international student enrollment today and provide actionable insights for educators, policymakers, and institutional leaders seeking to build inclusive, resilient, and globally connected campuses. Editors: Clay Harmon and Krishna Bista.

Sustainability and Social Responsibility of the Media and in the Media Milan Todorovic, Samuel O. Idowu, Silvia Puiu, 2026-01-01 This book addresses several relevant questions that keep coming up as the media sector develops and changes. Although the field of media is multifaceted, it is still dominated by very large commercial interests. The multitude of platforms, devices, formats, and technologies spread across different market segments are often controlled within the same value and supply chain, are diagonally integrated, and are tightly regulated by a set of changing and evolving community rules. Therefore, this book discusses a wide range of issues related to notions of media in various corporate, independent, and operational contexts, including ethics, ownership, authorship, originality, trustworthiness, economic, social, and even environmental sustainability. In this context, the book considers the notion of sustainability and social responsibility in media contexts from a variety of new, unbiased, and diverse perspectives, making it valuable for
