China's Cultural Trade Strategy Luo Libin, 2023-08-04 This book aims to provide theoretical and empirical interpretations of certain phenomena in the development of China's cultural industry Using the film and television industries as the major cases the author proposes suggestions on China's ongoing development of foreign cultural trade The author argues that China is well positioned to take full advantage of the opportunities of globalization to develop its cultural industry in a leapfrog manner China's rapid economic growth drives the country's development from a small cultural market to a large one Since it is a middle income country its cultural industry still has a relatively large potential to grow The study on China's foreign cultural trade strategy can contribute to the growing needs of people for a better life and enhance China's cultural confidence With an explanation of existing practices this book also aims to make recommendations on China's strategy for developing foreign cultural trade in the era of globalization This book will be a good read for students researchers and scholars of Chinese studies East Asian studies and culture economics and those interested in China's film and television industries

International Economics Lawrence A. Officer, 2012-12-06 International Economics is unique despite the existence of numerous books of the same title It is true that no one volume can capture the entire state of the art of the subject but individuals can apply their own perspectives to identify crucial issues in the development of the field Therefore rather than instructions to prepare surveys of subfields within international economics the contributors to this book were informed as follows Your essay should present an affirmative but constructively critical look at your subject It is not meant to be a survey Rather your task is to pinpoint crucial areas of development to offer a critical evaluation of what's going on in the field and where it might go Your contribution would be your own personal statement of how you see things It should be written at the professional level Beyond these general guidelines you may develop your essay as you see fit How much of international economics should be assigned to each author and how many contributions the book should have required careful consideration Traditionally international economics has been divided into pure theory and monetary theory suggesting a simple division of the field but this dichotomy has been overturned by the emergence of literature that overlaps both theories An opposite approach would have been to separate international economics into twelve to fifteen areas each with a contributor This procedure divides the field into too many parts and consequently overlapping threads of development would be ignored

Trade Liberalisation and Economic Development in Africa Gift Mugano, 2021-09-30 This book provides a thorough and rigorous discussion on the impact of trade liberalisation on economic development with a special focus on the African continent The author presents the rationale for trade liberalisation trade liberalisation frameworks the trade liberalisation economic development nexus impediments to trade and contemporary issues of international trade In this book notwithstanding the benefits from trade liberalisation the author shows that African trade as a share of global trade has remained flat at 3% as in 1975 while the continent's exports have remained raw materials and its intra regional trade at less than 15% of total trade which is the lowest in the world UNCTAD 2020 With respect to key economic development indicators such as economic growth poverty levels and employment levels this book shows that ironically and in direct contrast with the conventional views that trade liberalisation alleviates poverty trade liberalisation in Africa has resulted in high levels of unemployment and low economic growth which ultimately lead to increased poverty In addition this book provides a detailed analysis of why trade liberalisation has failed to yield meaningful benefits to Africa The binding constraints and blockages which prevent positive spin offs on trade liberalisation in Africa are discussed in detail in this book In the same vein the author provides practical strategies which must be adopted by African countries in order to gain from trade liberalisation making this work a must read for African governments academia trade experts regional trading blocs the World Trade Organization and development partners In view of this and as part of the disruptive and structural transformation policies the author discusses case studies and international experience contextualised to Africa as well as strategies for addressing the trade related infrastructure gap production capacities export promotion and aid for trade

International Economics
Thomas Pugel, 2006-04-19 This classic text covers all the conventional areas of international economics in an easy to understand manner The 13th edition continues to provide the best blend of events and analysis so that readers can build their abilities to understand global economic developments and to evaluate proposals for changes in economic policies The book is informed by current events and by the latest in applied international research Like earlier editions it also places international economics events within a historical framework The overall treatment continues to be intuitive rather than mathematical and is strongly oriented towards policy

International Finance in the New World Order H.P. Gray, S.C.

Richard,2014-06-28 Some of the most important developments of the last quarter century relate to the internationalization of financial issues the advent of free trade areas the efforts of the European Union in establishing a single currency burdens of international indebtedness and the economic growth and development of nations International financial systems are increasingly fragile and vulnerable in the face of possible international financial shock Exchange rate issues and other changes in financial conditions have profound consequences not only for multinational corporations which have to devise new ways of managing their global operations but also for firms and industries at the national level The papers in this book confront these and other problems in international finance that have arisen in recent years seeking to identify causal linkages at the global national and company levels
