Psychological Perspectives on Musical Experiences and Skills Blanka Bogunović, Renee Timmers, Sanela Nikolić, 2024-06-20 Psychology of Music is a flourishing area of research in the Western Balkans. However, much of its findings and insights have remained relatively unknown outside the region. *Psychological Perspectives on Musical Experiences and Skills* features recent research from the Western Balkans, foregrounding its specific topics, methods, and influences, and bringing it into productive conversation with complementary research from Western Europe and further afield. The essays in this collection investigate the psychology of listening and performance and their relevance to music practice. Employing a range of research methodologies, they address divergent themes from a cross-cultural understanding of aesthetic experiences and innovations to attract new audiences to developmental perspectives on musical growth and the challenges of mastering performance skills. Authors reflect independently and collaboratively on how these psychological processes are shaped by the different traditions and geopolitical conditions inside and outside the Western Balkans. The result is a volume that emphasizes how musical experiences and practices happen not in isolation but in socio-cultural environments that contribute to their definition. This work will appeal to musicians, music educators, students, researchers, and psychologists with an interest in the psychology of music and exemplify ways forward in decolonizing academia.

Understanding Domestic Violence Rafael Art. Javier, William G. Herron, 2018-08-10 *Understanding Domestic Violence* not only highlights and reexamines the different challenges that we continue to face in effectively addressing issues of domestic violence but provides innovated approaches to interventions that are more in keeping with the complex nature of domestic violence. This book provides a comprehensive and multifaceted examination of conditions and factors involved in domestic violence, including psychological, sociocultural, sociopolitical, and socioeconomic issues. The authors look at domestic violence through the trauma lens and intersectionality to develop intervention strategies within that context. Statistics and clinical examples from the field highlight unique, culturally based issues related to domestic violence among Latino, African American, and Arab Muslim communities, issues with woman perpetrators, and violence in the LGBTQ community, to name a few. In the end, *Understanding Domestic Violence* offers opportunities for the reader to engage in further discussion of the poignant issues discussed in the book, with the invitation to become part of the solution.
