To apply eyeliner like a pro, the secret key is to get the right tools to achieve something what makes you feel gorgeous isn't the technique but the tools. Once you know what tools are perfect for you, all you need is a bit of practice for example, finished over 10000 makeup tutorials, and by watching the tutorial you can achieve what it will bring. The practice will allow you to understand the best technique to use for your eye shape or your skin.

# EYESHADOW

The next step in eye makeup. Getting to know your eye shape (be deep-set, wide-set, close-set, round, prominent, downturned, a combination between those) is important to properly pick the right that way to enhance your natural beauty with a flawless eye!

## THE BASIC EYESHADOW TECHNIQUE

Now, I'll cover a basic eyeshadow technique that I consider both works well for most eye shapes!

- 1 Start by applying an eye primer
- 2 Next, take a transition shade and apply it directly for your eye (fully blending through your eye into your forehead) from your eye to your inner corner until it is completely blended
- 3 After that, take a darker but still neutral shade like a taupe and with a more precise pencil brush, apply it on the outer 1/3 of your eye!
- 4 Next, take a lighter/neutral shade and apply it to the inner 1/3 of your eye.
- 5 To finish, highlight the brow bone and the inner corner of your eye with a shimmer shade from the darkest shade area.

It's now up to you how far you want your eye to look. If desire for a darker look, and build that darkness on the outer corner.

Only Transition

You can mix and match this basic technique with the range of color of your preference, and recreate this look with purple, blue or pink for example!

# PREP THE SKIN BEFORE MAKEUP

It is essential to have a clean, smooth canvas before applying your makeup. Double cleanse to prep for your makeup application to look a beautiful glowing skin!

As you go to sleep your routine to do before makeup to have flawless skin is:

- Soap-free cleanser
- Toner
- Moisturizer
- Face Oil
- Sunscreen

Do you need to do every single step every time you do your makeup?

The ideal way to do this is by doing your regular skincare routine in the morning that always looks like the following: toner, moisturizer!

And you don't regularly apply face oil if you're not using it to add this into your routine.

Even so, we'll look at the previous products applied on the face:

And it works as a base for your makeup.

Sunscreen is an essential step that we don't want to skip, even during the winter season.

The only exception is when we are doing makeup for night events.

We don't want to use sunscreen because it can make our face look white or photos taken with flash.

The very next step, it's going to be for primer. Make sure to use it primer according to your skin type.

## EYEBROWS

How to do eyebrows depends on your natural eyebrow shape, but every face shape can't use a thicker eyebrow. Whether an Upward eyebrow but you can add a little downward arch to your eyebrows, the thicker your hair shape, that's the key.

### What Eyebrow Shape is Best?

First look at your natural eyebrow shape, how angled that, how thick or thin, and how long that you are, whether a straight line or curved.

The natural based on eyebrows is thin, thick, and fluffy brows, also, a laminated eyebrows effect.

### What to avoid on eyebrows makeup?

- Very dark eyebrows
- Very thin brows
- Very defined eyebrows
- Round eyebrows
- Powder

### What to use for eyebrows makeup?

- Brow pencils and a very thin eyebrow brush
- Brow waxes for a gel-like laminated effect
- Colored eyebrow gel

Create little brow holes in the area where you may have holes. Blend it well, use it with brow gel, and clean the brow holes with concealer.

### The right shade for you.

There is a straightforward trick to identify your skin tone very quickly.

Find the natural light of the sun, and look at your arm, looking for your veins.

All the veins in humans are blue, but the skin tones in them it will give the final step to what we can see on our skin.

If your veins are blue and your skin has a yellow-orange undertone, your veins will have to look greenish.

If you find your veins are purple and blue, you'll see a blue undertone, blue blue and gold from the purple color.

If your skin is very light, you'll find a combination of the two or you will also appear pink, you have a neutral undertone.

In general, the perfect foundation shade for you is a shade similar to your skin tone with the same undertone.

**PRO TIP:** Warm your foundation first with your fingers before applying it to your face to activate it and get better results on the skin.

## CONCEALER

The key to conceal is to get more coverage, especially the dark under-eye circles.

Use 1 or 2 drops of liquid concealer for covering the under-eye area and the other spot in your face that needs coverage.

Remember concealer and foundation are mixed up as they both are used to cover facial imperfections, but there are some key differences between the two.

- **Thickness:** Concealer is formulated to be thicker than foundation.
- **Blendability:** Concealer is designed to be used with a brush, sponge, or finger, while foundation is designed to be applied with a sponge.
- **High coverage:** Concealer is designed to provide more coverage than foundation, which is why it is used to cover the problem areas of your face.
- **Color:** Concealer has foundation and concealer usually have colors and some concealer that specifically designed to color-correct your skin. This can help reduce the look of redness, or blemish.

### Concealer Shade

Concealer should be lighter than your foundation only if you are applying it to bring light to certain areas like under the eyes, chin, inside of your forehead, etc.

If you are trying to cover imperfections on the rest of the face, opt for a concealer in a similar shade as your foundation instead.

Concealer comes in different formulas such as cream-concealer, pencil concealer, and the most popular one, liquid-concealer.
